## Armory Project For New Castle Appears To Have Approval

### Conference At Capital Gives Armory Boost

New Castle Committee Meets Adjutant General On Project

GIVEN ASSURANCE OF ATTENTION NOW

New Castle Will Get Armory If Legislature Passes Appropriation Bill

(From News Bureau)  
(State Capital)  
HARRISBURG, Pa., Feb. 2.—New Castle's chances for an armory to house Troop F took a decided step forward today following a conference between Adjutant General Davis and a committee from New Castle consisting of Louis B. Round, chairman of the civilian committee, Captain John B. Brettell, Senator George T. Weingartner and Assemblyman Bart Richards.

Mr. Round presented the New Castle plan of organization to General Davis, gave him the status of the troop insofar as civilian co-operation was concerned and asked that the request for an armory be fairly considered.

On Program List  
General Davis concluded the conference by saying that New Castle was on the preference list for an armory, and said that if the appropriation asked for armories went through this session, that the like-

Controversies Raise Almost Unsurmountable Obstacle In Path Of Congress

HOPELESS TASK LEADERS ASSERT

Democrats Are Forcing Extra-Session—Little Chance Of Compromise

By WILLIAM K. HUTCHINSON  
International News Service Staff Correspondent

WASHINGTON, Feb. 2.—Controversies over drought and unemployment relief, prohibition enforcement and recall of the new federal power commission raised almost unsurmountable obstacles in congress today to the Hoover administration's hopes of enacting its imperative appropriation program before March 4.

With but 27 legislative days remaining before the 71st congress expires, the administration task appeared hopeless. Its leaders announced they were willing to accept a special session of the new congress after March 4 if the Democrats carried out their apparent plan of forcing one.

"The Democrats seem intent on forcing a special session," observed Senator James E. Watson, Republican leader of the senate. "If they accept the responsibility, there is nothing for the administration to do but call one."

There appeared little likelihood of a compromise over drought and unemployment relief. Administration leaders announced themselves unalterably opposed to either the \$25,000,000 Red Cross food relief bill or the proposal to distribute 20,000,000 (Continued On Page Two)

### Two Men Found Shot To Death

Two Salamanca, N. Y., Residents Found Dead In Automobile Near Bradford

POLICE START INVESTIGATION

(International News Service)

BRADFORD, Pa., Feb. 2.—Police today launched an investigation into the death of John Dolentano and John Cook, both of Salamanca, N. Y., who were found shot to death in an automobile here yesterday. Both bodies were riddled with shotgun charges. Cook had been shot and stabbed and his body crumpled into the luggage compartment of the car.

According to word from Salamanca, the men told friends there they were leaving for Bradford to visit acquaintances here. Cook formerly lived here, moving to Salamanca three years ago after he had been acquitted of a murder charge in connection with the slaying of Charles Lanpher in a quarrel.

Authorities were notified by W. R. Glass, of Tuna, of the car standing by the roadside, but did not investigate for several hours, believing the motor to be one owned by oil workers prospecting the hills near the highway.

### Groundhog To Sleep On For 6 Weeks

"Get up, don't you know what day this is?" inquired mother groundhog as she poked her husband in the ribs this morning.

Father groundhog turned over lazily in his bed, muttered something about not caring what day it was, and attempted to resume his long sleep.

But mother groundhog wouldn't have it that way. "We're not going to have traditions shattered by any good-for-nothing groundhog like you," she declared.

A few more pokes in the ribs and father groundhog was willing to uphold tradition. He ventured out of his hole, cast one sweeping glance at the heavens, saw his shadow, and scampered back into his hole again.

"Saw my shadow," he announced to mother groundhog. Now we can resume our snooze for another six weeks, while the humans outside are fighting snows and blizzards.

"Suits me all right," said mother groundhog, as she tucked the covers over the little members of her family, took a squint in the mirror to see if her nightcap was on straight, and laid down beside her mate.

### Second Arrest For Robberies Near Bessemer

Joe Morrocco Is Placed In County Jail By Constable William Edwards

MARSHALL TAKEN SOME TIME AGO

Two Charged With Kidnaping And Robbing Dan Nosit And S. San-kovitch

Joe Morrocco, wanted in connection with the hold up of two Austrians near Bessemer on December 26, was captured by Constable William J. Edwards of Hillsville at Steubenville, O., yesterday and placed in the Lawrence county jail this morning.

Capture of Morrocco was the result of very good work on the part of Edwards, who has persistently trailed Morrocco ever since the robbery. His chase led him to Cleveland, Sharon, Farrell, Woodlawn, Pittsburgh and Steubenville. Morrocco, when found by Edwards in a hotel at Steubenville, is said to have admitted his part in the hold-up. A statement from him was taken by Constable Edwards and County Detective Lee, in the county jail today. Morrocco will have a hearing before Justice of the Peace J. R. Chaney of Bessemer.

Alleged Robbers  
Arrest of Morrocco follows the capture of Andy Marshall at Lowellville, O., a short time ago. Marshall and Morrocco are alleged to have perpetrated the hold up together. It is claimed that they picked up Dan Nosit along the road between Bessemer and Hillsville, took him in their automobile to a stone quarry, where they robbed him. He was then placed back in the car. Shortly afterwards they picked up Sam Sankovitch, whom they also robbed. Nosit and Sankovitch were then dumped out of the car and Morrocco and Marshall, who are alleged to have secured \$415 from the two men, sped away. Marshall was trailed to Lovellville, Ohio, where he was placed under arrest. The officers secured \$255 from him. Later he was brought to the Lawrence county jail.

Charges of kidnaping and highway robbery have been placed against the two men. After the arrest of Marshall, it is said that he signified his intention of entering a plea, but he has since changed his mind and will stand trial.

Morrocco will signify his intention later.

### Father And Two Children Die In Fire Swept Home

Mother And Two Other Children Rescued By Firemen At Cuyahoga Falls

HOME FIRED BY GASOLINE BLAST

(International News Service)

CUYAHOGA FALLS, O., Feb. 2.—Despite an heroic effort of a father to save two of his children, all were dead here today, victims of a fire which swept through their home following an explosion in an oil stove.

The father, who succumbed to the flames, was Frank Ridenour, Sr., Cuyahoga Falls truck driver. The children who died in the blaze were Rita, 3, and Frank, Jr., 10 months.

Mrs. Nellie Ridenour, 35, was in a critical condition at St. Thomas hospital, suffering from burns she received in the fire. She was confined in the hospital with two other children, Edgar, 6, and Lavina 8, who also suffered burns in the blaze.

The body of the father and the two dead children were found side by side in the kitchen of the home, where they apparently were overcome. Firemen rescued the mother and the two other children.

### Man Hit By Auto; Seriously Hurt

George Kirker Of R. F. D. No. 2 Sustains Fractured Skull Saturday Evening

George Kirker, aged 52, of R. F. D. No. 2 is in the Jameson Memorial hospital suffering from a fractured skull, received when struck by a car driven by Wilbur Chambers of R. F. D. No. 8, Mahoningtown, Saturday evening.

Mr. Kirker was still unconscious at the hospital at noon today and grave fears are entertained for his recovery.

Mr. Chambers came to the police station after taking Kirker to the hospital, where he reported the accident.

According to his story, he was driving on West Washington street at 7:40 Saturday evening. He had neared a point near the end of the street car line, when a man walked out in front of the car while attempting to cross the street.

Mr. Chambers stated that the man walked into the side of his car and was knocked to the street. With the assistance of H. K. Chambers and Julius Miller, who were in the car with him, he picked up the injured man and took him to the Jameson Memorial hospital, where it was found that his injuries were of a most serious nature.

Mr. Kirker has been unconscious since the accident, hospital attaches stated today, and his condition is regarded as extremely critical.

### Paul Whiteman And His Wife Separate

Famous Band Leader Settles \$35,000 Yearly On Wife And Child

(International News Service)

NEW YORK, Feb. 2.—The romance of Paul Whiteman, internationally famous orchestra leader, and his third wife, Vanda Hoff, has ended in an "amicable separation," according to reports along Broadway today.

Reports of a rift in the Whiteman home have been current for some time. It is understood the separation took place six months ago, the so-called "king of jazz" settling an allowance of \$35,000 a year on his wife and their six-year old son, Paul, Jr.

Whiteman, who during his picturesque career played second violin in a symphony orchestra and drove a taxicab in Denver before scaling the heights of jazz fame, is at present in Indianapolis. His wife, at one time a well-known dancer, is in Palm Beach with her son.

There may be a conference between my wife and myself in the spring," Whiteman was quoted as saying. "If anything happens, all the facts will be made public and there will be no scandal. It will be handled in a dignified manner."

Whiteman's first marriage was to Nellie Stack in Denver in 1908. They were divorced in 1914. In 1922 he married a girl known as "Jimmie Smith" but a divorce took place the same year.

HARRISBURG, Feb. 2.—Pennsylvania's legislature will reconvene tonight at 9 o'clock, and at that hour the first really active week of the session will get under way.

Since the opening session on Jan. 6, both the house and senate have been marking time. A few strokes of business developed but for the most part the gatherings have been perfunctory. This week a decided change is forecast.

First Calendar  
Reports from house and senate committees tonight will permit a calendar of first reading bills to tomorrow—first calendar of the session.

Then, too, the senate judiciary special committee is scheduled to meet tomorrow morning to act on the earnest resolution, which proposes an investigation of the public service commission.

The resolution is due to be amended and even with the amendments which will be adopted there is doubt as to its passage by the senate. Governor Pinchot has his own plan for handling the public utility problem and any action on the earnest resolution which will in any way interfere with the governor's program is due to meet strong opposition.

Engine Trouble Keeps German Fifty-Ton Plane From Continuing Flight

LAS PALMAS, CANARY ISLANDS, Feb. 2.—Engine trouble this morning prevented the DO-X fifty-five ton German flying boat, from taking the air in continuation of a projected flight from Lisbon to New York via the South Atlantic and Brazil.

It is probable that the world's largest heavier than air craft will not get away until tomorrow morning.

Las Palmas, Canary Islands, Feb. 2.—Anxious to avoid further delay and speed up re-fueling of the DO-X, captain Friedrich Christiansen today taxied his giant flying boat into the quiet waters of Glandu Bay, an inlet 15 miles from the harbor here.

The DO-X, whose flight to Porto Praia as its next port of call en route to South American and New York was delayed by minor engine trouble and adverse weather, will take-off from Glandu Bay tomorrow.

There was a time when the winter snow, put your car in the stall till the spring, and you walked in winter, or trotted instead, till the birds began to sing. You removed the wheels and you drained the tank, and you smothered the bearings in grease, for you knew it was there till the balmy air of the springtime would mark release. But those days are gone, and today your car is carrying daily loads, and only because there are workmen out, responsible for the roads. ### Vanderbilt Did Meet Mussolini

Italian Records Show That Mussolini Did Grant Audience To Vanderbilt

PREMIER DENIES ANY AUTO RIDE

By GUGLIELMO EMANUEL  
International News Service Staff Correspondent

ROME, Feb. 2.—The question of whether or not Cornelius Vanderbilt, Jr. saw Premier Mussolini in Rome in 1926 was answered in the affirmative today.

Following an exhaustive search of the records it was revealed that Vanderbilt did have a brief audience with Il Duce five years ago, similar to brief audiences granted to hundreds of visitors annually.

The statement from official quarters added, however, that the audience was so brief that it left no impression on the premier's memory.

This explains why the premier last Friday authorized a statement to be circulated by International News Service saying: "I never saw Cornelius Vanderbilt in my life."

Today's explanation reiterated that Vanderbilt had not been the guest of the premier and that Il Duce never drove Vanderbilt in his own or any other car.

# Pinchot Expresses Self On Resolution

Cooperation Of Both Houses Needed To Insure Commission Investigation

Pinchot Preparing List Of Messages For State Legislature Next Week

(International News Service) HARRISBURG, Feb. 2.—If the legislature intends to investigate the Public Service commission it will be possible only through cooperation of both houses toward the object, according to views which Governor Gifford Pinchot today expressed.

"There is no chance whatever, in my opinion, that either House would vote for an appropriation to be expended for an investigation by the other House alone," the governor said.

The earnest resolution proposing an investigation of charges against the commission calls for a committee made up of members of the judiciary general committee of both houses. The status resolution which asks for a probe of public utility domination of the state would continue the committee membership to the Senate alone.

The governor pointed out that a measure which proposed an investigation of any scope would have to carry an appropriation and that he considered it doubtful if either House would approve the spending of money by the other alone.

To Present Estimates The first of a series of messages which the governor intends to present to the legislature and which will deal with various phases of the Pinchot program will be delivered one week from tomorrow and will deal with unemployment. At the same time the report of the committee which has studied the unemployment problem will be made public.

Tomorrow the governor will appear in person before a joint session of the legislature to present his budget estimates but that speech will deal only with the financial problems of the next biennium.

The governor's plans call for a number of separate addresses to the legislature during the present session. The one next Tuesday dealing with unemployment will be followed by others which will explain the administration stand on various problems facing the session.

## You're the JUDGE

Dr. Penobscot B. Hay had been practicing in this particular town for more than a dozen years. One day the child of Mr. and Mrs. Hickory L. Jones fell ill. Dr. Hay had been the family doctor of the Joneses for quite a while, so he was called in. He came and examined the child and prescribed for it, but even though the child took its medicine regularly, he became steadily worse and eventually died.

Mr. Jones was very sad at this, and very bitter at Dr. Hay. So to everyone he met, in answer to the question as to what the child died of, he answered that he died of overdoses of drugs prescribed by Dr. Hay. At last this began to reach the ears of the doctor, and when he felt that it had been going on so long as to imperil his professional standing, he filed suit for slander. At the trial Jones argued that even though he did say those words they were not such as to make him liable for suit.

How would you decide this case? Make up your mind before you read the decision. (Decision will be found on classified page.)

## SLAYER TRIES TO COMMIT SUICIDE

(Continued From Page One)

Kensington while Carona his throat slashed with a pen knife, was rushed to the Pittsburgh hospital where attaches reported his condition as critical.

Two Versions Given An immediate investigation into the shooting of Marzocco and Carona's daughter got under way with two widely varying versions of the motive behind the slaying confronting police. Both versions came from Carona.

To detectives Carona declared he had presented Marzocco's attentions to his daughter, while to Oakmont police he said he had met the youth several days ago and invited him home to repair an automobile but that Marzocco had rendered the car in his throat.

Another angle was added to Carona's story when he stated that Marzocco was a member of a black-hand gang and that he suffered from fear that the youth would cut his throat.

Carona was arrested in Indiana while trying to make his escape by John Douglas, a coal and iron policeman. Douglas took the prisoner to the Oakmont station where, left momentarily alone, Carona whipped out a pen knife and slashed his throat.

Admits Firing Shots Carona's self inflicted injuries were so serious as to preclude any attempt by detectives to question him at the hospital. Police were unable to immediately ascertain whether Carona's daughter was the victim of bullets that went wild when the irate father opened his fusillade at Marzocco.

The youth was shot three times and the girl twice, according to Dr. Joseph Griffiths of Indiana who was called to the Carona home scene of the shooting.

Oakmont police said Carona admitted firing six shots from a .38 calibre revolver.

## MAJ. GEN. BUTLER WILL FACE TRIAL ON FEBRUARY

(Continued From Page One)

chosen as the locale for the trial, which promises to be spectacular.

Reports Reprimand May Be End Washington, Feb. 2.—Maj. Gen. Smedley D. Butler may not be subjected to a naval court martial for describing Premier Mussolini was a "hit and run driver" after all.

This surprising possibility developed early today as a result of the feeling in high administration quarters that perhaps the proceedings against the marine officer were more severe than the circumstances warranted.

Secretary of the Navy Adams had a long conference with President Hoover at the White House this morning concerning the Butler case. He declined to discuss anything pertaining to it when he left. But it is understood the project was considered of calling off the general court martial and confining Gen. Butler's "punishment" to a stiff reprimand.

The motivating influence for softening the action against Gen. Butler was said to be administration's dread of having the case dragged out for weeks and "sensationalized" in the newspapers. It was pointed out that the United States had now formally apologized to Mussolini, and that the Italian Premier has accepted it with the observation that he "considers the incident closed."

In view of the fact, it has been urged upon President Hoover and Secretary Adams that for the government to proceed to try Gen. Butler for an offense that Mussolini, the injured party, considers ended with the apology, would only serve to keep the matter alive, and perhaps lead to additional embarrassment.

Stackpole, Jr., commanding the 104th Regiment of Cavalry met with the committee following the conference with General Davis and suggested that he be allowed to keep a copy of the New Castle plan and he be permitted to work out an arrangement whereby this plan could be taken over by the state and printed as a basic plan for all units of the Pennsylvania National Guard. Mr. Round and Captain Bretwell were encouraged with the various conferences and feel that the work of securing an armory for New Castle has been materially advanced.

bushels of wheat free for relief. The Democrats declared they would never retreat, holding that relief of hungry citizens was the greatest duty confronting the federal government.

These two items—the Red Cross fund and the wheat gift—tied up the interior and war department appropriation bills. Either house or senate must relent or both measures will die, thus forcing a special session.

The Democratic-insurgent coalition meanwhile will try to add a "rider" to the independent offices appropriation bill, barring payment of salaries to the three federal pow. commissioners whose confirmation was revoked. The administration defeated a like move in the house and if the coalition wins in the senate, another appropriation bill will be in danger of dying unenacted on March 4.

Democrats in Control. The prohibition war furnished fireworks and served as a buffer for the coalition's program in the senate. There, the Howell bill, proposing a drastic bone-dry law for the national capital, headed the administration program. All sides agreed it would not pass, but the administration feared to sidetrack it. Meanwhile, it served to prevent the enactment of any other important legislation, excepting appropriation bills.

## GENERAL ASSEMBLY READY FOR ACTIVE SESSION THIS WEEK

(Continued From Page One)

an entirely different proposition for studying the utility question than that proposed in the earnest resolution, political wisecracks on Capitol Hill felt today as members of the assembly gathered.

A new flock of election bills is expected to be dropped into the assembly hopper this week. Conference with Governor Pinchot for the discussion of legislation looking toward the correction of some election abuses are planned for early in the week and it is considered quite likely that bills meeting with the approval of the administration will be introduced before adjournment for the week is taken.

The governor's attitude toward a number of activities of the state government will probably be learned tomorrow when he carries his budget for the 1931-1933 biennium to a joint session of the house and senate.

Will Present Budget.

The governor's appearance before the legislature tomorrow will be the first of several he proposes to make during the session. The budget figures will be presented personally by the chief executive and he will read his first direct message to the legislature, a message which will cover and explain the budget.

Though the budget looms large in consideration, the public service resolution today was attracting most comment.

It was fairly certain that whatever course the senate decides upon in regard to future action on the commission will not be decided definitely until tomorrow.

In the senate, the first and only bill to come from committee so far will be up for second reading tonight. The measure so far will be up for second reading tonight. The measure proposes to shift the financial burden of institutions for indigent insane persons from the counties of their residence to the state treasury.

Under this measure the state also would take over control of institutions for the insane now under jurisdiction of cities or counties. The bill is sponsored by Senator Woodward, Philadelphia.

## GYM HOUR AT Y. W. TUESDAY

Want Hour Of Healthy Exercise?—Be Guests Of Y. W. C. A. Tuesday Afternoon

All girls of sixteen years of age or over, who are free from 3 p. m. to 4 p. m. on Tuesday, are invited to come to the Y. W. C. A. and enjoy an hour of gymnasium work.

There is no fee charged, a competent instructress will be in charge of the class, games will be played, folk dances taught, exercises conducted and all in all it will be the most profitable way possible to spend an hour.

This will be the third Tuesday afternoon that this recreation hour, a

new feature at the Y. W. C. A., will have been conducted. Each time a gratifying number of young women have attended and it is expected that this time many more will be interested and will be present.

The gymnasium is on the third floor of the Y. W. C. A. building, 1 East Washington street. Upon request there will be separate groups in table tennis, ping pong, basketball, roller skating, folk dancing, etc. In fact there will be whatever sort of activities the girls desire.

Miss Nellie Dyer will probably be in charge of this Tuesday class, in the absence of Miss Caroline Streeter, health director.

All residents of New Castle or any surrounding towns are invited to take part in this play hour. It will take place at the same time every Tuesday afternoon.

Edward Albert, otherwise the Prince of Wales and traveling salesman for Great Britain, carries no samples.—The Toledo Blade.

#### Way to Get At a Cold Is Through the Bowels

As soon as you catch cold, the pores close; perspiration is checked. Gases and waste can't escape through the skin. That's why your doctor's first advice in case of colds is a mild laxative like Cascara. Medical authorities agree it actually strengthens bowel muscles. You get cascara in its most pleasant form in candy Cascarets.

Remember this when you catch cold; whenever breath is bad; tongue coated; or you're headachy, bilious, constipated.

Why resort to harsher things when Cascarets activate the bowels so quickly, so harmlessly and pleasantly—and cost only a dime?

Presented in Recital

The pupils of Mrs. Edna Payne of Highland avenue were presented in an entertaining recital at her home Saturday afternoon. Following the program, the hostess assisted by Mrs. Daniel Hughes, served dainty refreshments to those taking part and their friends.

## MORE WHEREWITHAL

THE year 1930 will go down in history as the "year of the great depression" and yet the National Association of Mutual Savings Banks estimates that savings increased \$1,000,000,000 during that 12-month period. This provides an indication of the store of capital that is on hand for the revival of business and industry.

This vast increase came largely from two sources. Funds that in the years immediately preceding poured into stock exchanges were placed in savings banks last year. There has also been a marked reaction from the spendthriftiness of the inflation years because of the depression.

This is not hoarded gold. It has helped carry the nation's banking structure through the period of deflation and to finance new business. Nor can the psychological effects of that reserve upon an anxious and confused people be discounted.

While the country has been running at slackened speed it has been gathering energy for a renewal of its former stride. When the money that has been accumulated and which is now being accumulated is again allowed to flow, "hard times" are doomed.

## BURDENS OF PRESIDENT

Few citizens of the United States realize the burden that the chief executive of this nation is being called upon to bear. Year after year this becomes heavier and heavier, and probably no president has been so harassed and burdened as President Herbert Hoover, who has been faced with conditions that have confronted few presidents in the history of our country.

In an address in Pittsburgh during the past week, James Francis Burke, appearing before the Spanish War Veterans said a few things concerning this burden that might well be pondered by the people of the nation.

In part Mr. Burke said: It is a pity that our presidents should be so constantly the target for poisoned arrows; a pity that so many seem to think that the man in the white house is put there only to belittle and burden him with sorrow.

If those people who revel in presidential abuse had the slightest conception of the multitude of problems and the variety of vicissitudes that confront the chief executive, they would not add to his burdens.

And no president has ever toiled more conscientiously or intelligently night and day for his country's welfare than Herbert Hoover, who has been called upon to bear his responsibilities in the most troubled period of all the world.

Burke concluded his address with: "When we approach the men in public life and comrades in private life with better understanding of the problems confronting them, a happier day will have dawned."

## CHIP ON THE SHOULDER

The pen may be mightier than the sword, but one's tongue can lead to a lot of trouble. An amen to that comes from General Butler, of the United States Marines, we are certain.

A few words spoken at a club have caused a court martial, a demand for a diplomatic apology, the extending of such an apology and a government investigation and may end a picturesque distinguished military career. And in the latter event it may inflict upon the Pennsylvania political scene another office-seeker and a noisy one at that.

There is dynamite, war and disaster in words. For less than General Butler has said nations have gone to war with great loss of life, or have broken off diplomatic relations. Nations are more sensitive than individuals, and more loath to apologize. Another of their idiosyncrasies is that with what foreign civilians say they are not concerned, but let some one in official life give utterance to the same thought and it is occasion for a sharp interchange of notes.

General Butler's indiscretion lay in saying that disarmament and world peace are remote possibilities because of men like Benito Mussolini, whom he described as a "cold-blooded hit-and-run driver." Unwittingly, he thereby brought to the fore another reason for the remoteness of disarmament and world peace—this national touchiness. Governments that grab the diplomatic quill every time foreign gossip reaches their ears need little more provocation to fight. It makes no difference whether it is a man or a country, a chip on the shoulder needs a strong right and a good left.

## A NEW HAZARD

During the past year in particular have the news dispatches told frequently of accidents in which persons on terra firma have been injured or killed and private property damaged by falling airplanes. Instances where planes have crashed into buildings are not uncommon and there was recently reported an incident where a plane struck a wagon, killing one and injuring two of the occupants of the latter vehicle.

Such incidents, which are bound to become more frequent as the number of aircraft increases, raise the question as to what statutory legislation is needed to reinforce the common law and existing regulations for protection of the public against this new danger from the skies.

State legislatures are considering bills defining the rights and liabilities of aircraft operators and their responsibilities in case of personal or property damage. In some states commissions have been created to frame regulations to surround flying with new safeguards, principally for the benefit of passengers. An act of congress requires inspection of all airplanes and licensing of all pilots.

Some states are contemplating compulsory liability insurance for all airplane owners to prevent repetition of the situation existing on the motor highways where drivers who cause the most damage are least responsible financially.

Along with protection for aerial passengers there must be ample protection for private property and non flying inhabitants as they are endangered by the new mode of transport.

When Mary Ann had bathed the children and put to bed her charges, the mother returned and asked: "Well, miss, how did you get along with the kids?"

"Not so badly," replied Mary Ann. "But I had an awful time with the oldest boy—the one that kept on smoking cigarettes in spite of the fact that I told him if he kept on smoking he would stunt his growth."

The one that smoked cigarettes? shrieked the mother. "Why, that was my husband."

There's a Door

I'm puzzled. In fact, I've been puzzled for years. It's about a door. The door is down the hall from the office where this is written. It's just an ordinary door, a glassed wooden-frame door, with a knob and two hinges and a spring lock and a trick button so it can't be opened from the outside, unless you know the secret. But there's no secret button on the inside. All you do to open it is turn the knob and push and the door will swing out and there you are! No trick at all.

But people, strangers have trouble with that door. I've seen hundreds of them puzzled by it. They know how to use it. They walk up to it and turn the knob and PULL. Nothing happens. They pull again and they look around, puzzled. . . . They fuss and they fuss. And sometimes they reach up and turn the knob on the spring lock and really do lock themselves in. . . . All kinds of people do that. Old ladies. Young men. Gentlemen who are all confidence and composure. Everybody. They walk up to that simple looking door, as calm as you please—and then they flop.

I don't know about that, but I have an idea that all around us are doors that would open easily if we'd just give a slight PUSH, but that we are so sure we are locked against us. Doors out of Pessimism, doors out of Boredom or Grief or Loneliness. Doors we could open if we knew how, doors that open OUT to other people, doors we think open only IN—toward ourselves. Just a slight push outward, instead of a peevish pull inward, and there we'd be.

I think it's true that the difference between dullness and ecstasy, between misery and joy, is very slight indeed, that there's only a slight difference between people—but that the difference is all-important. . . . And perhaps you have a closed door in your own life that would open easily, at a touch, if you only knew how—if you'd use your head.

"It would be utter folly," declares the ST. LOUIS GLOBE-DEMOCRAT, "to ignore this danger and do nothing to protect the country from its destructive tendencies. It is well that the Fish committee realizes the danger of the communist activities, and congress can hardly fail to be deeply impressed by its disclosures and conclusions."

"There is no occasion for hysteria," thinks the ROCKFORD REGISTER-REPUBLIC, "but the warning calls for earnest study. Strong immigration and deportation laws will go a long way to make impotent the sinister plans of the enemies of this country."

The committee's conclusion, however, is a gratifying feature of the report is the earnest praise given the American Federation of Labor for its incessant war on communism. There has been a disposition to make light of the committee's inquiry. This feeling perhaps finds its origin in the scanty vote polled by the Communist party in various elections. The committee looks beyond this and finds a condition calling for prompt remedial measures.

"The report sets before the thinking men and women of this country too big a subject for thought to leave any excuse for misunderstanding its meaning," declares the BUFFALO EVENING NEWS, while the PORT WATNE NEWS-SENTINEL, advising against "a hysterical campaign," concludes that "there must be a strengthening of our system of supervising immigration" and that "it is just as well to keep an eye on all undesirable aliens."

## Council Instructs City Treasurer To Delay Making Levy

Council in formal session at City Hall today adopted Councilman Lou Genkinger's resolution requesting that the city treasurer be instructed not to make levies upon personal property for the collection of delinquent taxes. The resolution further stipulated that the time for payment of taxes be extended to the first Monday in June, the regular date for the sale of properties for delinquent tax purposes.

BE IT RESOLVED by the Council of the City of New Castle, Pa., That in all cases where taxes have been levied upon real estate in the City of New Castle for city purposes in 1930 and yet unpaid, in whole or in part, the City Treasurer be requested and instructed not to make any levies upon personal property for the collection of said taxes and that the time of the payment of the said taxes be extended to the owners of the said properties to the first Monday of June, 1931, the regular date for the sale of properties for delinquent city taxes, and.

BE IT FURTHER RESOLVED, That if there be no levied and uncollected on the said lands any school taxes, and if the school dis-

trict of the City of New Castle shall also consent that the City Treasurer not levy on any personal property for the collection of the school taxes, and if the said school taxes be not paid at the time the property is sold for city taxes the City Solicitor be authorized to purchase the said property at the said tax sale in the name of the City to protect the City taxes, and the school taxes as well, that are levied against the said property; and that the school board be requested, in order to facilitate and protect the collection of school and city taxes for the year 1929, to extend the time for filing school taxes against the said property as nearly as possible to the first day of May, 1931.

Under Councilman Genkinger's plan, according to Solicitor R. McK. White, owners of properties can make tax payments on the installment plan. The resolution as adopted relieves the treasurer of making a levy.

Genkinger presented the resolution, which was adopted unanimously, owing to the fact that some persons are temporarily financially embarrassed and he nor other councilmen want anyone "driven into the street".

## Escaped Convicts Shot To Death By New York Officers

Two Of Four Escaped Penitentiary Convicts Slain—Two Others Captured

(International News Service)

NEW YORK, Feb. 2.—The last two of four convicts who escaped from Eastview penitentiary, Westchester county, Christmas Eve, were dead today. They were shot by police

after a night of crime which began with two robberies in Beacon, N. Y.

The dead men, Charles Sirico, 27, and James Clark, 25, escaped from Eastview with Peter Reynolds and William Rapp, both of Yonkers.

Rapp was captured last week in Yonkers and Reynolds joined the other two in their last crime adventure. Also with them was John

Creedon of New York, who police said had a crime record.

After an earlier robbery, the thieves stole \$5,000 worth of jewelry from a shop in Beacon and were just making off when two policemen gave chase. After a pursuit of more than 55 miles the bandits shot it out with officers here. Sirico

was found dead on the floor of a taxi they had commandeered and Clark died after he was removed to a hospital.

The stolen jewelry was found in Sirico's pocket.

The men were identified by tattoo marks. A Red Cross nurse was tattooed on Clark's arm and the words "Love To Maty" on his wrist identified Sirico.

Creedon and Reynolds were both charged with suspicion of felony. Creedon was arrested in front of the jewelry store at the start of the long chase and Reynolds was captured at Yonkers as the three were fired on by police and forced to abandon their car for the taxi.

## "Food Poisoning" Causes Given By Dr. Clendening

By LOGAN CLENDENING, M. D.

You may have had this experience: You go somewhere for dinner—restaurant or hotel. The food is good. Tastes good. Smells good. Is good. You go home well satisfied.

Then in the middle of the night—calamity. You wake up. You are nauseated. You think it is only temporary. You close your eyes and try to go to sleep. It is not temporary. You have to get up. You vomit. Several times. You wonder whether you will die. You hope so. Diarrhoea sets in and more vomiting. Next day you are weak as a cat. Can't touch a morsel of food.

Explanations! "It was the fish." "It was the meat." "The salad was contaminated." "Potomac." "Food poisoning."

Perhaps it was. But there is a new and interesting explanation. I believe a great many cases of this kind can be explained on this basis. And since it can be prevented with care I tell it for what it is worth.

It was first discovered about three or four years ago. There was a banquet in a hotel of a large city. The next morning 30 or more of the people who attended came down with the set of symptoms I have described. The management of the hotel was worried. They asked the commissioner of health to inspect the meat served at the banquet. Nothing was found in it or any of the rest of the food.

But as the chemist who was making the investigation was passing through the pantry of the hotel he noticed, where they were polishing the silver, a peculiar odor. It was like almonds. Could it be cyanide? He went over to the man who was polishing the silver and saw that his hands and arms were stained a dark metallic hue. The chemist took some of the silver polish they were using and analyzed it. It contained 21 per cent of a salt of cyanide—a deadly poison.

There was no question that this discovery was the explanation of the epidemic of illness among the banqueters. The little amount that was left on the silver, when it got into their stomachs was not enough to kill, but only to make them sick. The reason some escaped being sick was probably that all the utensils did not have the cyanide on equal-ly. On some forks and knives and

spoons it clung. On others it was completely washed or rubbed off. This occurrence is not the only one of its kind. More than 20 epidemics of the sort have been proved. The chemist who made the original discovery tells a good story. Shortly after he uncovered the reason for the banqueters' sickness he took his family to Atlantic City. They stayed at a hotel. The first night after dinner all of them were violently ill. The manager of the hotel came up and was profuse in his apologies. The chemist told him he thought he could discover the trouble if he were allowed to go into the kitchen. The manager was only too willing to allow him to do so. When the silver polish user in the hotel was examined it was discovered to contain cyanide.

The manager almost burst into tears from gratitude. He said he had been driven to his wit's end by visitors getting sick in the same way after a meal in the hotel. It had happened at least once a week for years. He had had all the meat and food inspected, but the cause had not been discovered until then.

In New York, statutory regulations now prevent the manufacture of silver polish containing cyanide.

EDITOR'S NOTE: Four pamphlets and four articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are: "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes" and "Feminine Hygiene." The articles are: "Normal Diet," "Diet of the Expectant Mother," "Tuberculosis" and "The Atonic Abdominal Wall."

## Peter's Adventures

MRS. FLORENCE VINCENT

### ANT HILL REVOLUTION BREWS

"Stuff and nonsense!" shrieked the fiery little ant, who had done her level best to stir up trouble. "I should think you Black Ants would be ashamed of yourselves to be so chicken-hearted! The very idea of being ready and willing to live on as slaves when you might be as free as the other insects of the field and forest. Haven't we done earned our right to a good time? Haven't we dug and built and hunted for our mistresses long enough? Haven't we nursed them only to make them weak, felled and carried for them only to make them lazy? It's about time we begin to think of ourselves, and our own comfort. How about it, sisters?"

"Hear, hear!" shouted some of Agitator Ant's most loyal followers. "What do you plan to do, dear leader?"

"Start a revolution!" replied Agitator Ant, promptly. "There's nothing like a revolution to settle things."

We Blacks will rise up and overthrow the Redskins!"

"Yes, and then what?" demanded Chief Engineer, who did seem to have a sensible head on her fat shoulders. "Now, sisters, listen to me and I will tell you the truth. What Agitator plans is perfect nonsense. And your trouble be upon your own heads if you do as she tells you. If you rise up and overthrow the Redskins, just as sure as you are born in a very short time another tribe of Redskins will march upon this hill and destroy it. We are born to be slaves, and you know it, and why not remain the slaves of our mistresses whom we know and love, instead of turning treacherously upon them, only later to be taken captives by Redskins who might be much harder to live with! Out of the frying-pan into the fire—that's what it would be, sisters!"

Next: "No Revolution; Reform."

### STORIES LIKED MORE BY BOYS THAN BY GIRLS

More Boys Attend Story Hour At Public Library On Fridays Than Girls

Boys seem to be more interested in fairy stories, fables and stories of adventure and imagination, than girls are, according to Miss Alice Joyce, children's librarian of the New Castle free public library. Each Friday evening story hour is conducted at the library, and usually it can be counted on that more boys than girls will be present.

However, the girls are more enthusiastic about club work, than the little male editions are. The Blue Star club meetings are always attended by more girls than boys, although quite a number of boys are members.

### HARLABURG MAN FRACTURES HAND

Charles G. Wolfe, of Harlabsburg was treated on Saturday by a local physician, for injuries to his hand, received while working for the Whitaker and Diel company, Rock Springs.

Mr. Wolfe received a green stick fracture of the metacarpal bone of the right hand and also bruises.

### No More Piles

How to End Terrible Agony Without Slices or Cutting

External treatments cannot permanently end Piles. Nor does cutting remove the cause. The cause is internal—bad circulation of the blood in the lower bowel. The veins are faulty—the lower walls weak—the parts almost dead. To quickly and safely rid yourself of piles an internal medicine must be used to heal and strengthen the affected parts.

Dr. J. S. Leonhardt, a specialist, after years of study discovered a real internal Pile remedy. He named his prescription HEM-ROID, and prescribed it for 1000 patients, with the marvelous record of success in 950 cases, and they Pile sufferer should be able to get HEM-ROID from their own druggist. Don't waste time on external remedies or think of the pain and expense of an operation until you have tried HEM-ROID. New Castle Drug Company or Eckert's of New Castle, Inc. will supply you and guarantee money-back if it does not end all Pile misery.

## Program Announced For Institute Of Children's Division

Interesting Event To Be Held In The Second United Presbyterian Church

Announcement was made today of the program of the Children's Division Institute to be held in the Second United Presbyterian church, County Line street, on Thursday February 5, under the auspices of the Lawrence County Sabbath School Association.

At this Institute, the officers and teachers and all interested in Children's Division Work, will have the opportunity of hearing and becoming acquainted with Miss Lillian E. Reed, Children's Division Superintendent of the Pennsylvania State Sabbath School Association.

The registration for the afternoon session starts at 1:30 and there will be the Friendship supper at six o'clock for those making reservations. The evening session starts at 7:30 o'clock. Those desiring to make reservation for the Friendship supper should get in touch with Mrs. M. E. Vaughn without delay.

Mrs. M. E. Vaughn, county superintendent of the Children's Division, has charge of the arrangements for the Institute and those who attended the institute held last year will remember the benefit received in instruction methods and inspiration for workers among children. It is anticipated that the coming institute will prove even more beneficial.

The program of the Institute follows:

1:30-1:45 Registration of delegates.  
1:45-2:00 Devotionals by Rev. A. J. Randles, pastor of Institute church.  
2:00-2:15 "Is Missionary and Temperance Instruction given the place they should have in the church school program?" Mrs. S. H. Shaw, Children's Division Superintendent, Slippery Rock District.  
2:15-3:00 Methods for Teaching Children, Miss Lillian E. Reed, State Children's Division Superintendent.  
3:00-3:30 Conference on Cradle Roll Department.  
3:30-4:00 Conference on Beginners Department.  
4:00 Question Box. Adjournment.  
6:00 Friendship Supper for those making reservation.

7:30-7:45 Devotionals, Miss Anna Perry, County Administrative Superintendent.

## KNOCK THAT COLD IN A JIFFY

Here's Relief Almost Before You Know It

If you want quick relief from a cold go back to first principles and use something you know does the business—don't start "trying" a lot of fancy ideas or remedies. Even a "little" cold is too dangerous to take chances on.

Get Hill's Cascara Quinine, a scientific formula made to do ONE THING WELL: to knock a cold in a jiffy, not to cure a hundred different things.

Take two tablets now. Then follow directions on box. Drink lots of water, too—that's all. Soon those mean, aching pains in head and body begin to go; the cold breaks up, poisons leave your system. Almost before you know it, you feel like a new person.

If it doesn't do that, your money back. Get a box now. You'll be surprised at the speed with which it works. Costs only a few cents.

## How a second meeting ruined their romance

'B.O.' lost her many an admirer until—

"I hope you'll come again," she said. But she knew he wouldn't. She could feel he had lost interest in her, just as other men had.

Yet last night, when they met for the first time, he had seemed instantly attracted—eager to call. Why had this evening been a failure? Why had he turned so cool and distant?

Now she knows the reason. Knows why she couldn't hold admirers—had no intimate girl friends. Let her tell you how she ended her fault—won popularity.

"It was a terrible shock to learn that I was guilty of 'B.O.'—body odor. But it's so easy to offend—and not know it! Pores are continually giving off odor-causing waste—as much as a quart daily.

Our senses become deadened to an ever-present odor. We don't notice 'B.O.' in ourselves—only in others.

"Yet no one need ever offend. Just wash and bathe with Lifebuoy. You'll feel so gloriously clean—so fresh—so safe. For Lifebuoy deep-cleanses pores—ends all trace of 'B.O.'"

Want a good complexion?

Regular cleansing with Lifebuoy is the best of beauty treatments. Its gentle, yet searching lather frees tiny pores of clogged impurities—brings fresh, healthy radiance to dull, sallow skins. Its pleasant, extra-clean scent—that vanishes as you rinse—tells you Lifebuoy purifies. Adopt Lifebuoy today.

## Pal Of Irene Is Sought By Officers

Big Automobile Theft Ring Is Unearthed At Akron, Ohio

AKRON, O., Feb. 2.—An automobile theft ring whose wide-spread ramifications were directed by a woman and allegedly aided by a justice of peace, was uncovered today and six men, alleged members, were held in custody.

Prompt arrest was planned for the justice of the peace and a search was begun for the woman. Police said she formerly was a pal of Irene Schroeder, who now faces electrocution in Pennsylvania for the killing

## Baptist Pastor To Start Series

Beginning Wednesday, February 11, Rev. G. M. Landis, pastor of the First Baptist church expects to start a series of Bible studies in First Corinthians, a book which has much to say concerning the order and conduct of the New Testament church. The new series will be of unusual interest and it is anticipated that those interested in these studies conducted by Rev. Landis will be present in large numbers.

## SPECIAL SERVICE FOR BOY SCOUTS

At the eleven o'clock service next Sunday morning at Trinity Episcopal church, the members of Troop 55, Boy Scouts of the church, will attend in a body, also other Boy Scouts. The service will be especially for the Boy Scouts and during the service, the flags of the church troop will be blessed.

A horse at West Barnstable, Cape Cod, kicked over a lantern and caused a \$45,000 fire in which two automobiles and a tractor were destroyed. Poetic justice, as it were. —The Springfield (Mass.) Union.

## Market Baskets NOT Waste Baskets

Three hundred and fifty dollars' a year is about the price each family in the United States has to pay for waste in distribution—that is, for wasteful methods used in bringing from manufacturers to consumers the goods sold in retail stores. This means that your family is charged nearly a dollar a day for sheer waste. An extra dollar a day—not for better service, not for better merchandise—but for careless, old-fashioned, roundabout ways of doing business.

It is not necessary to reduce the quality of goods in order to reduce prices. It is only necessary to reduce waste. The best food is not costly; waste always is.

A & P, after years of experience, has solved the problems of eliminating all wastes in the distribution of food. That is why it is able to sell the best foods at the lowest prices. Its customers pay no tax in wastes.

The Great ATLANTIC & PACIFIC Tea Co.

\*Based on the estimate published by the U. S. Department of Commerce that the waste in distribution in this country every year amounts to \$10,000,000,000.

## Ruth Bryan Owen Receives Attention In Congress Halls

Establishes Herself As Leaders  
In First Term In U. S.  
Congress

The Honorable Ruth Bryan Owen, who will lecture here on February 19 under the auspices of the P. E. O. Sisterhood, has established beyond doubt that a first-term in congress may be something besides a political, legislative, and social nonentity.

If her ambition to sit in the halls of congress was inspired to understand for her famous father, William Jennings Bryan, she is doing well by him. Of larger significance is the fact that she is starting in her own right.

The simple truth is that this gracious, smiling woman, well-gowned and graceful, is an unoubted hit in Washington's political show. She was accorded an ovation when she first appeared on the floor of the House of Representatives. The Dixie Democrats did that. Few of them had ever seen Mrs. Owen. The tribute was to her father.

But this session of congress had not been going on for ten days before it began to appear that a new star had burst on the political firmament. Mrs. Owen is not in Washington as the widow of a congressman, or the daughter of her father, but has scored in her own right.

One of the planks in Mrs. Owen's political platform is "to support every measure that gives recognition and justice to those who offered their lives for their country in time of war." And Ruth Owen knows something about war. On the walls of her home are two frames. One of them holds five medals, bestowed on her late husband for valor and ability in the World War. The other contains three medals that were given her for her war service. Those who suffered because of their part in the world conflict are close to the heart of Congresswoman Owen. For months she was a nurse in the war hospital at Cairo, Egypt. As a result of this experience there came to her the determination to do all I could to educate the youth of today, in whose hands lie the destinies and decisions of the morrow, that the nations can find a way to keep international decency and order; that war can be avoided without cowardice if the nations accept as a substitute a practical plan of arbitration, and that bayonets do not pierce only a soldier's heart, but the hearts of his family—that on a battlefield there stand a million homes.

Mrs. Owen's lecture subject is "Modern American Knights." It will be given in the auditorium of the Senior high school on February 19. Mrs. Owen is much in demand socially and for speaking engagements, and the P. E. O. Sisterhood feels that it is very fortunate in being able to secure her; and that she is worthy of the best the city can give her in the way of entertainment and audience.

## Glass House Is Proven Healthy

Woman Author Claims Living  
In One Also Improved  
Her Disposition

Good Health magazine, edited by Dr. John Harvey Kellogg, tells us that a glass house is the healthiest in which to live. This opinion is based on the experience of a woman of eighty-four years of age, living at Bournemouth, England. Four years ago, according to Good Health, Miss Geraldine Fitzgerald, author of a number of books, had a glass house built in her garden. She has lived in it ever since and declares that she is not only better in health as a result, but also happier in disposition.

To a reporter who visited her in her greenhouse home, which the sunshine flooded with life and warmth, Miss Fitzgerald stated that she has always been delicate and had suffered from a variety of ailments. "No," she said, "instead of always moaning and grumbling and fearing illness, I am in better health than I ever was. I can walk seven miles a day without feeling tired, and I am far more fit at eighty-four than I was at eighteen. This is the secret of being able to do without doctors." In her opinion living in glass houses would eliminate many modern complaints. Cooking is done on an oil stove and candles are used for lighting.

## Prominent Oil Man Is Called By Death

(International News Service)  
BRADFORD, Feb. 2.—Word was received here today of the death of Carl K. Dresser, 41, prominent Pennsylvania oil man and well known also in the Kentucky and Oklahoma oil fields.

Dresser was a son of the late S. R. Dresser, founder of the S. R. Dresser Manufacturing company of this city.

Dresser's body will be brought here for the funeral tomorrow. Death was ascribed to liver trouble.

## Plan Burial Of Veteran Mayor

(International News Service)  
EAST LIVERPOOL, O., Feb. 2.—  
Friends today were viewing the body  
of John H. Burgess, 88, four times

mayor, who died Saturday from  
burns received a month ago while  
standing in front of a coal fire.

Burgess, a Civil War veteran, had  
been one of the guard over Jefferson  
Davis, President of the Con-  
federacy, after his surrender. He  
was the last mayor of the village  
and the first executive of the city  
of East Liverpool. He was elected  
mayor twice on the Republican tick-

et and twice on the Democratic  
ticket.

Funeral services were expected to  
take place tomorrow.

## Charges Against Butler Will Be Drawn Up Today

Definite Charges Against Major-General Butler Will Be Filed Today

DOUBT REMAINS AS TO OUTCOME

Butler's Resignation Would Lead To Suspension Of Charges By Navy Department

(International News Service) WASHINGTON, Feb. 2.—Definite charges against Maj. Gen. Smedley Butler will be placed before Secretary of the Navy Adams today, by Capt. William C. Watts, judge advocate in the court martial, of the Quaker-marine, now under arrest at Quantico, Va.

There still remains some doubt as to the final outcome of the affair, which so far has included Premier Benito Mussolini of Italy, and Cornelius Vanderbilt, Jr., New York journalist.

Court martial was ordered by Secretary Adams, when the Italian embassy complained that charges made by Butler against Il Duce, before a Philadelphia gathering, were untrue.

Vanderbilt Comments Butler has not denied stating that Mussolini was a bit and run automobillist, but indicated the information had been given him by Vanderbilt, Mussolini declared he had never met the Gotham writer.

The latter pointed to interviews and a reception in Rome in 1926, but made no further statement.

Butler's resignation doubtless would lead to a suspension of charges by the Navy department, as Mussolini and the Italian government are satisfied with the American apology, but so far the internationally known warrior has given no evidence of such action.

## Daisy Devoe To Enter Appeal

Former Secretary To Clara Bow Will Appeal From Verdict In Coast Court

CLAIMS JURORS USED "SHORT-CUT"

(International News Service) LOS ANGELES, Cal., Feb. 2.—Daisy Devoe, convicted of embezzling \$825 from her one time employer, Clara Bow, the screen star, today was to attack as an illegal short-cut the methods her deadlocked jury used in arriving at its verdict.

Miss Devoe will appear for sentence before Judge William C. Doran, who tried her on 35 counts of embezzling a total of \$16,000 from the screen "It" girl.

To prove her contention that the jurors cast lots to determine which of the 35 grand theft charges to find against her, Miss Devoe subpoenaed the seven elderly men and five middle-aged women for the panel.

Attorney William Beirne, in charge of Miss Devoe's case, was prepared, he said, to "make this hearing as protracted as the court will permit" in order to discover whether the jurors, tired and wrung by emotion, had as alleged, left Daisy's fate to a toss of the dice when their own powers of analysis of the evidence failed to find a solution.

The jurors battled for five hours before finding Miss Devoe guilty on one count and acquitting her on the other 34 counts.

## Appropriation For Law Library Made

Following a petition of the Lawrence County Bar Association for an appropriation for the law library for 1931, which was presented to Judges Hildebrand and Chambers this morning, an order was made for the county commissioners to pay \$3,000 for the support of the library.

The appropriation last year was \$1,787.55. More was needed this year as there are outstanding balances to be met of \$979.60 and contracts for books in force already amount to around \$1,500.

## Excitement Abounds As Piano Is Fired

There was a great deal of excitement in the frame home of the Frank Pilzy's home, 15 Chartes street, Sunday afternoon after it was discovered that the Pilzy's prize piano had been fired by a burned paper chimney hole cover.

Two companies of firemen from No. 5 and central stations responded to save the piano. Assistant Fire Chief Stockman reports that the paper hole cover caught on fire, then dropped on top of the piano, burning the cloth cover before it scorched the wood. Damage of \$55 was caused it is reported.

## United States Had An Early Interest In Its Education

Federal Government Selected Sites For Schools As Far Back As 1785

The importance attached to education by the founders of our federal government is shown by the provisions they made for its permanent endowment and development. says the United States office of education. Before the adoption of the Constitution the Continental Congress, by the ordinance of May 20, 1785, for ascertaining the mode of disposing of lands in the western territory, prepared the way for the advance of settlements and education as contemporaneous interests. This ordinance directed the disposition of the said territory in the following manner:

"A surveyor from each state shall be appointed by congress or a committee of the states, who shall take oath for the faithful discharge of his duty, before the geographer of the United States who is hereby empowered and directed to administer the same.

"The surveyors \*\*\* shall proceed to divide the said territory into townships of six miles square, by lines running due north and south, and others crossing these at right angles.

"The townships respectively shall be marked by subdivisions into lots of one mile square, or 46 acres, in the same direction as the external lines and numbered from 1 to 16.

"There shall be reserved for the United States out of every township the four lots being numbered 8, 11, 26 and 29 \*\*\* for future sale. There shall be reserved the lot No. 16 of every township for the maintenance of public schools within the said townships.

"The educational endowment of 640 acres of land (one section of land, one mile square) in a township six miles square marks the beginning of federal subsidies for education," continues the office of education. "The manner of establishment of public schools thereunder, or by whom, was not mentioned. It advanced and established a principle which finally dedicated not less than one thirty-sixth part of all public lands of the United States, with certain exceptions as to minerals, etc., to the cause of education by public schools."

## Protest Against Embargo On Oil

Heated Opposition To Proposal For Embargo On Imports Of Crude Oil

SENATOR TYDINGS DISPLAYS FIGURES

(Washington News Service) WASHINGTON, Feb. 2.—Opposition to an embargo on imports of crude oil was voiced today before the senate commerce committee by Representatives of the Associated Industries of Massachusetts; The American Automobile Association; Independent oil interests and the City of Savannah. The committee is considering the Capper bill which would relieve the depression in the independent oil industry by limiting imports to 16,000,000 barrels yearly.

Albert R. White, vice president of the Associated Industries, said an embargo on crude oil would cause an increase of \$1 a barrel to Massachusetts firms which now take advantage of a 75 cent differential in favor of oil over coal. He said gasoline would be increased to the consumer by eight cents a gallon, and asserted an embargo would cause Mexico, Colombia and Venezuela to retaliate immediately against the New England textile industry.

"We need the trade with those countries in the textile industry," he said. "If the embargo were placed on oil they would immediately retaliate against us."

White predicted the embargo would increase not only the domestic price of oil but would increase production also.

Harold Walker, of New York, Eastern attorney for the Doherty Oil interests, speaking on behalf of the Pan American Oil Co. and the American Automobile Association, voiced the protest for both concerns, while George M. Rummell, industrial commissioner of Savannah, protested on behalf of Savannah.

Senator Tydings (D) of Maryland, cited figures to show that an increase of \$1 a barrel as estimated by opponents of the embargo would cost the entire country \$900,000,000 annually.

He estimated the cost to Maryland users of oil more than \$70,000,000 annually.

**Bee Keepers Meet Here On Thursday**  
New Officers Will Be Elected By Lawrence County Group In "Y" Building

New officers for the year will be elected at the annual meeting of the Lawrence County Bee Keepers' Association in the Y. M. C. A. building, Thursday. The session will open at 1:30 p. m. and will consist of a regular business discussion.

A new president will succeed H. A. Kyle, North Beaver, the present head of the society.  
E. J. Anderson, extension bee specialist of State College who was a speaker at the sessions of the Lawrence County Fruit Growers' Association last month, will be a speaker at the bee specialists' meeting.

## High Executive Plans To Attend Scout Conference

Miss Josephine Schain, National Director Girl Scouts, To Come Here In May

Miss Nance Pugh, director of the New Castle Girl Scout troops, received word from national headquarters this morning that Miss Josephine Schain, the national director of Girl Scouts, will attend the regional conference that will take place in New Castle next May.

Also attending this conference will be several other high executives of the national organization, and officers of the region. The region includes a large part of north-eastern United States and takes in several states. Many troops will send delegates to the conference.

In the mail this morning Miss Pugh received a tentative program that will be carried out in New Castle during the conference.

Several hundred delegates will attend the regional training period that will take place at Camp Dick Victor, beginning May 8 and lasting for a period of three days.

Conference headquarters will be The Castleton hotel, although one day's session will take place in the New Castle Field Club.

New Castle is fortunate in having this conference in New Castle. Several hundred delegates will attend and the conference will last through May 13. Scout executives will consider it fortunate also in having the national director, Miss Schain in attendance.

## Mandatory Increases In Salaries For Teachers Boost School Costs

(From News Bureau) HARRISBURG, Feb. 2.—Mandatory increases for teachers' salaries as provided for in the Edmonds act is expected to result in a considerable jump in the cost of operating the schools for the 1931-32 biennium. The exact amount required from the state treasury during the biennium will not be known until after Governor Pinchot's budget message has been presented to the General Assembly.

Two years ago there was appropriated from the general fund \$78,374,400 for maintenance of the primary schools and teachers' colleges. In addition \$10,251,000 was given to the secondary schools such as the Pennsylvania State College, University of Pennsylvania, University of Pittsburgh, Temple and several medical schools.

The amount to go for education during the next two years may run above the \$100,000,000 mark, according to some well informed sources. That increase is brought about by provisions of the Edmonds act, which gives automatic increases in salaries to teachers. No person acquainted with the educational system of the state is in a position to say where it will end.

If the amount of money to be recommended by the governor for education in the biennium which begins June 1 is more than \$100,000,000 it will be nearly double what was given in the first Pinchot biennium of 1923. Then \$56,966,540 was appropriated. Two years later the Edmonds act necessitated the granting of \$65,848,945 and in 1927 the governor approved \$74,329,265. Inability to estimate correctly the needs for education two years ago has resulted in a deficiency which former Governor Fisher in his last message to the legislature last month placed at \$1,247,971.

## Argentine Firing Squad Ends Life Of Noted Gangster

Paulino Scarfo, Right-Hand Man To Slain Chief Dies Gaily

(International News Service) BUENOS AIRES, Feb. 2.—A firing squad, re-enacting the Sunday morning scene wherein the Argentine's most notorious bandit chief of recent years paid the death penalty, today ended also the crime career of Paulino Scarfo, the gang master's right-hand man.

Unflinching and without a sign of repentance, Scarfo walked to his death post in the chill of dawn and accepted death as calmly as his chief, Severino Di Giovanni. The latter smoked a cigarette before standing up to the rifle volley at the National penitentiary at dawn yesterday. Scarfo died with a grim smile on his lips.

He is Hiram W. Rodenhaver, 60, who was recently elected to honorary membership in Citizens' Steam Fire Engine Company No. 3 here in recognition of his long services.

Rodenhaver was born in Chambersburg in 1870. There his father was a member of the Goodwill fire company for a score of years and the son was dazzled in the glory of the post, he remained to old cronies here when he was installed in his honorary post.

When Hiram was 14, his family moved to Harrisburg and apparently the chances of becoming a fireman went glimmering. But, as soon as he was of age, he enrolled in the Citizens' company. For 35 years he served with the company, holding in that time virtually every post within its ranks.

We regret exceedingly that we must take issue with so noted an authority as Mr. Blatt. Most people have told us that they need good brakes... and we have built up a fine business making bad brakes good. These folks say that equalized brakes are a positive necessity these slippery days. ## New Rules Will Protect Vessels

Coast Guards Make Mistake In Seizing Vessel, Causing Embarrassment

FISHING BOAT IS SEARCHED FOR RUM

(International News Service)  
WASHINGTON, Feb. 2.—As a result of the damage inflicted on the fishing smack "Good Luck" by coast guardsmen who seized her off New York harbor as a rum running suspect, new rules are to be put into effect which will protect vessels engaged in legitimate trade, it was announced here today.

Reas Admiral P. C. Billard, commander of the coast guard, will go to New York for a conference with Wm. F. Morgan, president of the Mid-Atlantic Fisheries Corp., and other interested business men, with the object of re-drawing the regulations so as to prevent a recurrence of the "Good Luck" case. Rep. Laguardia (R) of New York, also will take part.

The seizure of the "Good Luck" developed into a comedy of errors. There is another schooner called the "Good Luck" which Laguardia said was a rum runner. The coast guard on the lookout for this craft came on the fishing boat "Good Luck" with a load of cod on board.

Papers Demanded  
Boarding the craft, they demanded the papers of Captain John Bendisen. The skipper protested. It was then discovered that the measurements of the vessel did not conform to specifications in the papers, coast guard officers accompanied the "Good Luck" to port and after the fish was unloaded it was taken to the coast guard base for examination.

Carpenters tore up a part of the ship, suspecting that it contained a false bottom. This was found to be untrue and no liquor was discovered. Laguardia said the coast guard made

the necessary repairs and released the ship. The captain then asked for the return of his papers. But the papers had been lost. Officials agreed to issue new papers but in their preparation it developed that Bendisen's wife owned the ship and the papers could not be signed because she was out of town.

Eventually according to Laguardia the new papers were issued, conforming to the proper dimensions of the boat and Bendisen returned to the fishing grounds.

## Swick Is Guest Of State Society

Congressman Attends Pennsylvania State Society Ball At Capital

(Special to The News)  
WASHINGTON, D. C., Feb. 2.—Representative J. Howard Swick was a guest of the Pennsylvania State Society of Washington at the opening ball of the Society in the Hall of Nations ballroom of the Washington Hotel here on Friday evening.

The guest of honor of the affair was Owen J. Roberts of Philadelphia, associate justice of the Supreme Court of the United States. Justice Roberts spoke briefly, dwelling upon the merits of the Keystone State, and praising its people as the most industrious and hospitable people in the world.

A musical program was presented by the Keystone Quartette of the Pennsylvania Railroad. Dancing followed the entertainment, and Representative Swick was one of those to take advantage of the opportunity to enjoy the large dance floor of the Hall of Nations room.

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 20 years, and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative safe and pleasant. No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They help cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you should find quick, sure and pleasant results from one or two of Dr. Edwards Olive Tablets. Thousands take them every night to keep right. Try them, 15c, 30c, 60c.

NEW YORK, Feb. 2.—Prevailing enthusiastic banking methods remind one of the western story about the boom town where one of the young men, seeing dance halls and kindred enterprises flourishing but no bank, hung out his shingle.

After a number of deposits came rolling in, he deposited \$100 himself.

MAGIC DEBUNKED

Now the magicians come along and tell us there is no such thing as magic.

Damn this scientific age, anyway! It seems that the business of dragging a rabbit out of a silk hat and extracting an egg from Cousin Elmer's collar is nothing but applied science.

The whole thing, from saving the little brunette lady in half, to swallowing packages of needles, followed by a spool of silk, taking a glass of water, and then coughing up the needles, all threaded, is mere "magical manipulation" combined with a thorough understanding of human psychology.

However, there's one illusion left to the Pastor.

It will not be mentioned here. Some modernist might see it and proceed to kick it around the lot. It would be a darned serious thing to lose that last lone illusion. When that goes Yo Pastor is through. He's finished.

BLISSFUL IGNORANCE

While we're dealing with Knocking Birds, just a word or two about Freddie Macmonnies, sculptor and satirist extraordinary.

Fred designed a statue called "Civic Virtue" which some years ago was placed in City Hall Park—a nude gentleman with his rear breadth turned toward the windows of the mayor's office.

It's the biggest sculptural raspberry ever hurled by a wielder of chisel and mallet. If Tammany Town ever really discover that Macmonnies tried to express through that medium—glory be!

THAT FUTURE SHADOW

Well, anyway, Fred not having struck any statues around town for quite a spell, felt he had to get rid of some of the thorns that were well-in' up in his manly breast, so he let loose a blast the other day about women who over-indulge in eating.

## INCOME TAX FACTS

NO. 1

The Bureau of Internal Revenue receives annually thousands of letters of inquiry relative to the income-tax law and regulations.

Taxpayers ask for information concerning the personal exemption allowed a single person, a married person, and the head of a family; the credit for dependents, deductions for business expenses, losses, depreciation, taxes, bad debts, contributions, etc., and the rates of tax.

The purpose of the bureau is to answer the questions most frequently received in a series of newspaper statements based on the latest regulations and rulings relating to the income-tax laws.

The normal tax rates on individual net income of a citizen or resident of the United States for the calendar year 1930 are 1½ per cent on the first \$5,000 in excess of the personal exemption, \$400 credit for a dependent, etc., 3 per cent on the next \$5,000 and 5 per cent on the balance. The rate of tax on the net income of a corporation is 12 per cent. These are the rates provided for by the revenue act of 1928. The 1 per cent reduction on individual net income and corporation net income, later provided for by joint resolution of Congress, applied only to income for the calendar year 1929. The surtax rates on individual net income in excess of \$10,000 remains unchanged.

The period for filing returns begins January 1 and ends at midnight of March 16, 1931. March 15, the usual close of the filing period, this year falls on Sunday, allowing taxpayers an additional day of grace, which, however, it will be to their interest to disregard. To file early is of mutual benefit to the Government and the taxpayer, especially if the latter is in need of aid in making out his return, a service available without cost at the offices of collectors and deputy collectors of internal revenue.

The return must be filed with the collector of internal revenue for the district in which the taxpayer has his legal residence. The tax may be paid in full at the time of filing the return or in four equal installments, due on or before March 16, June 15, September 15, and December 15, 1931.

### Local Boy's Letter To Byrd Expected To Be Read Before Explorer Himself In Detroit

#### LOCAL BOY'S LETTER

Rear Admiral Richard E. Byrd, intrepid explorer of the south pole's icy wastes, will likely hear read a letter from the pen of a New Castle schoolboy when he speaks before the National Educational association's department of superintendence at Detroit, February 23.

Robert Love, student of grade 8A at the George Washington junior high school, wrote the letter which local authorities chose as the city's contribution to the tribute which American school children will pay the rear admiral in the form of letters that day.

#### Notes Impression.

Robert, who paid a personal visit to the "City of New York" Byrd's ship, when it lay anchored at New York, said in his interesting letter: Rear Admiral Richard E. Byrd, United States Navy.

Dear Sir:—The impression made on my reading of your achievements in the newspapers at the time when you were astonishing the world by your polar expeditions was greatly deepened by reading your books, "Skyward" and "Little America".

Therefore, when I had the opportunity of visiting your ship, "The City of New York", then lying in the Hudson river, I spent an interesting afternoon, examining the equipment used on the dash to the south pole and seeing the photographs, models and even the dogs that pulled your sledges. The preparations made under your direction for this expedition were marvels of thoroughness, as you seemed to have thought of everything in advance and to have provided for every emergency. It is fortunate that you could foresee conditions in the Antarctic, for had your equipment been less complete, it might have resulted in failure of the object of your journey, or even in loss of life to you or your men.

Your flight across the Atlantic and your trips to the north and south poles stand out as spectacular exhibitions of daring, ability, coolness and skill, but of course they have a much deeper significance. This is especially true of the south polar expedition, for the world's knowledge has been greatly broadened by the results of your observa-

tions there. The data, maps and other information will be of immense value to science, and the manner in which your ships and airplanes withstood the hard service will help future designers to provide for almost any condition that might be met.

It is probable that there were few Boy Scouts who would not have been glad to fill the shoes of Paul Sipe, their comrade who was honored by being chosen to accompany you. Indeed, it is not hard to understand why you are the living ideal of the army of scouts the world over, for your life and character exemplify all of our aims and ambitions. In the knowledge that your enterprises were undertaken not for personal glory, but as unselfish contributions to science, we salute you as a model for the youth of the nation, in courage, perseverance, achievement, modesty and integrity.

Your sincere admirer,  
ROBERT LOVE.

### Deny Rioting At Coal Mine Near Greensburg, Pa.

(International News Service)  
GREENSBURG, Pa., Feb. 2.—Reports of rioting at the Edna No. 1 Mine, near Greensburg, operated by John Carr and sons, Inc., today were denied by John S. Carr, general superintendent of the company.

Carr admitted a picket line of 50 striking miners of the adjoining Edna No. 2 plant had been formed at the mine early this morning. He said he was forced to leave the road while driving to work by a crowd of men who block the highway. Carr said he escaped injury although his machine struck a telephone pole.

There was no disorder, Carr said, and the workers were allowed to continue their picket work peacefully.

#### Doctors Fight To Save Two Ill With Botulism Poisoning

Two Have Already Died In Grafton, N. D., Of Strange Food Poisoning

(International News Service)  
GRAFTON, N. D., Feb. 2.—Doctors were fighting today to save the lives of two more persons threatened with death by a disease, identified as Botulism, which has taken a toll of ten lives thus far. Physicians described the disease as a type of food poisoning.

Twelve persons were stricken following a dinner party Thursday at which home-canned peas, believed to have caused the poisoning, were served the guests.

Joseph Leach, 25, and Genevieve Hein, 17, are the two victims who may die, according to physicians. The death list includes Mrs. Elmer Stokke, Margaret McWilliams, Arthur Jorand, Edward Hein, Edward Hein, Jr., 2 son; Mrs. Edward Hein, Elizabeth Hein, a daughter; Arthur Lessard, Harry Chappewsky and Mrs. Thomas Chappewsky.

#### Will Visit Many Legion Posts In Behalf Of Banquet

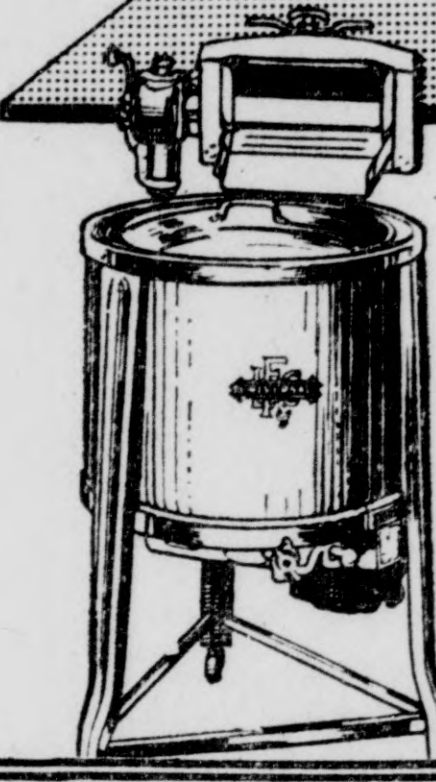

Visitation Committee To Start Intensive Campaign For Commanders Banquet

For the purpose of insuring the success of the coming National Commander's banquet, to be held on the evening of March 11, in the Cathedral, under the auspices of Perry S. Gaston Post No. 342 American Legion and for the Legion Posts of the twenty-sixth congressional district, the visitation committee headed by Dr. H. H. Rosenthal and the membership of which includes all members of Gaston Post will this week inaugurate an intensive campaign in the interests of the banquet.

With the presence of the National Commander, Ralph T. O'Neill of Topeka, Kansas, assured for the occasion, the posts and citizens of Western Pennsylvania and Eastern Ohio are showing interest in the event and large delegations are expected. The visitation committee is making the visits to insure that all posts of the immediate adjoining districts know all about the coming visit of the national commander and can make plans to attend.

Thursday, February 5, the visitation committee will be the guests of the Youngstown post of the Le-

gion. The meeting will be a joint affair of seven posts of the Eastern Ohio district. There will be a big crowd, and a pleasant evening's entertainment in honor of the local visitors and the message of the coming national commander's banquet will be put across so that a large delegation to the event will be assured.

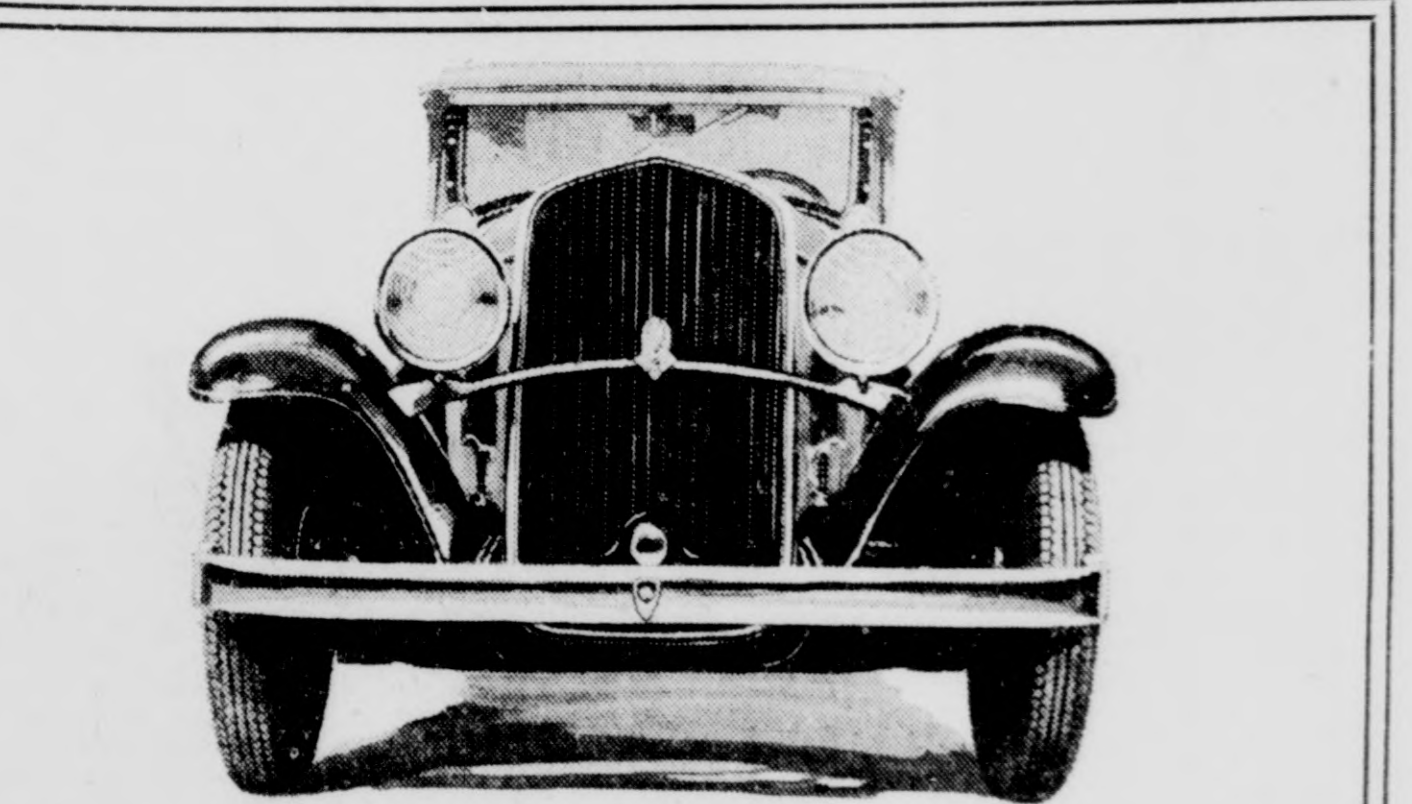

Monday, February 9th, the committee will be the guests of the Butler Post. The Zelienople, Slippery Rock and Evans City Posts will join with the Butler post in welcoming the committee on this occasion.

The committee visits the Greenville Post on the night of February 10, and will be the guest of the Sharon Post on February 11. The Mercer and Sharpsville posts will join with the Sharon post on this night.

It is anticipated that these visits, which are to points outside as well as within the limits of the congressional district will result in large delegations being pledged to the banquet on the occasion of the national commander's visit. Those places already visited have pledged many people for the banquet, which it is hoped to make as big and successful as that of last year.

## Jail Sentences Are Diminishing Drunken Drivers

Records For 1930 Show 26  
Jailed As Compared To  
39 In Previous  
Year

NO EXCUSES ARE  
TAKEN BY COURT

Judges Hildebrand And  
Chambers Have Decided  
Views In Cases Of  
This Kind

Jail sentences imposed by Judges  
R. L. Hildebrand and James A.  
Chambers in the cases of drunken  
drivers appear to be having a salu-  
tary effect, according to a compar-  
ison of the court records during the  
past two years. In 1929 there were  
39 jail sentences imposed on drunk-  
en drivers, while in 1930 there were  
26.

In the latter year there were 27  
cases of drunken drivers before the  
court. One was paroled as there was  
some doubt regarding the guilt of  
the accused. This parol was the  
only one which had been granted  
during the past two years.

**Menace On Road**  
Judge Hildebrand and Judge  
Chambers believe that there is no  
greater menace on the roads than  
a drunken driver. The man who  
drinks liquor and then starts out  
in an automobile shows a reckless-  
ness which is not to be condoned in  
any way.

In most cases of this kind which  
are brought before the court attor-  
neys generally make pleas of clients  
in which it is urged that it was a  
first offense, that the prisoner is a  
man of prominence, that he has a  
family to support, that he is liable  
to lose his job, and numerous other  
excuses.

However the court has made it a  
rule, that when a man is brought  
in for driving an automobile while

intoxicated, no matter what his ex-  
cuse, if the evidence is sufficient, he  
is given a jail sentence.

**Two To Six Months**  
In addition a fine of \$200 and  
costs is imposed. Sentences gener-  
ally run from two months to six  
months, depending upon the grav-  
ity of the case. In some instances  
after sentence has been passed the  
court indicates that a petition for  
parole will be entertained after the  
prisoner has served a specified time,  
provided the \$200 fine and costs are  
paid. The \$200 fine goes to the  
county.

During 1929 there were 25 cases in  
which the jail sentence was three  
months. In eight cases it was four  
months, in two five months, in one  
six months and in one eight months.  
In a majority of cases the entire  
time was served.

In 1929 the longest jail term given  
was eight months. There were  
two of six months, five of five  
months, four of four months and  
the balance two and three months.

The fact that only one man has  
been paroled in two years on a  
drunken driver charge indicates very  
clearly that the court has no sym-  
pathy for drunken drivers, and that  
when they come up for sentence  
they can expect jail terms.

In view of the danger of a drunk-  
en driver on a highway the court's  
action in imposing sentence meets  
with popular approval.

## Ambridge Council Will Be Guarded

Threats Made That Unemployed  
Will Appear At Council  
Session

(International News Service)  
AMBRIDGE, Pa., Feb. 2.—Coun-  
cilman chambers of Ambridge  
Borough will be guarded by a po-  
lice detail tonight as a precau-  
tionary measure against reports pre-  
valent today that members of the  
"Unemployed Council of Ambridge"  
might appear before city council  
tonight.

Leaders of unemployment organ-  
izations were quoted as declaring  
they will appear before the council-  
men to demand relief for the job-  
less.

Two attempted meetings were  
broken up last Friday night when  
police, led by Chief J. W. Flocker,  
used tear gas bombs to disperse  
gatherings in a Merchant street  
building and on a nearby vacant  
lot.

## 6 Firemen Arrested In Harrisburg For Starting 13 Fires

Police Report Confession. By  
Men Seeking Thrill; Losses  
Placed At More Than  
\$1,000,000

HARRISBURG, Feb. 2.—Arrest  
of six city firemen, one a member  
of the State police, and another a  
former State Highway patrolman,  
charged with setting thirteen fires  
in this city that caused losses to-  
talling more than \$1,000,000 was an-  
nounced by Chief of Police Shoen-  
maker.

The six confessed, Chief Shoen-  
maker said, that they set the fires  
solely for the thrill of helping put  
them out.

Those arrested are: Leroy Zim-  
merman, State policeman; Hudson  
Hess, Lemoyne, former highway pa-  
trolman; Robert Kittinger, William  
Sanders, Edward Weyant and Da-  
vid Paul Schrum. All are between  
the ages of 18 and 32.

The arrests, the first of which  
were made yesterday and the last  
today, climaxed an investigation  
which extended over several months.  
All but Schrum were members of  
the Hope Volunteer Fire Company.  
Schrum belonged to the Mt. Vernon  
company.

In their confessions the volunteer  
firemen said they traveled about  
town in an automobile and when a  
favorable opportunity presented  
they started a fire. Then they drove  
back to the fire house, awaited the  
alarm and then jumped to the  
trucks to fight the flames.

## Bad Breath spoils the sweetest smile

Every Stomach Sufferer  
Has It—Tanlac Corrects It

THAT disgusting "brown" morning  
taste in your mouth, a whitish or  
yellow coated tongue—these are sure  
signs your breath is bad.  
The tongue and mouth is nothing  
more or less than the upper end of your  
stomach and intestines. When the con-  
dition below is upset and badly digested  
food is souring in these organs, your  
breath tells the story and all the mouth  
washes and antiseptics can't mask its  
offending odor. It is a matter of a few minutes. You  
need Tanlac to correct this condition.

Taken before meals Tanlac prevents forma-  
tion of gas and acids, there is no burning,  
burning or distress. Tanlac helps regulate the  
bowels, too, and so with your system free of  
disturbances, acids and acids are kept from  
the mouth and breath is sweetened. Get a better taste  
in your tongue. Accept no substitutes. Satis-  
faction is yours. Back.

## THE QUESTION BOX CENTRAL PRESS WASHINGTON BUREAU

Answers to questions on informa-

stamped envelope. No answers will

value of old coins be given.

From what is the quotation  
"Hitch your wagon to a star," and  
what are some other works of the  
author?

"Hitch your wagon to a star" is  
found in "Society and Solitude," by  
Ralph Waldo Emerson, early Ameri-  
can essayist and poet. Some of his  
noted essays are "Self-Reliance,"  
"Friendship," "Heroism" and  
"The Over-Soul."

What was the origin of "Mason  
and Dixon's Line"?

"Mason and Dixon's Line" is the  
popular name of the boundary-line  
surveyed between Nov. 15, 1763, and  
Dec. 26, 1767, by two English mathe-  
maticians and surveyors, Charles  
Mason and Jeremiah Dixon, to settle  
the constant dimensions between the  
Lords Baltimore and the Penn fam-  
ily, the lords proprietors of Mary-  
land and Pennsylvania, respectively.  
It was originally marked by mile-  
stones, every fifth one bearing on a  
side the coat of arms of Penn and  
on the other those of Lord Balti-  
more. The name was afterwards  
currently applied to designate an  
imaginary boundary line between  
the free and the slave, a practice  
which took its rise in 1820, when,  
in the debates upon the Missouri  
Compromise, John Randolph of  
Roanoke made use of the phrase. It  
was caught up by the newspapers  
and gained a popular significance  
which it retained throughout the  
slavery conflict.

From what poem is the following  
line: "Heaven is not reached at a  
single bound"? Who is the author?  
"Gradatim," by Josiah Gilbert  
Holland.

Who were the secretaries of state  
under President Washington?

The secretaries of state under  
President Washington were John  
Jay, Thomas Jefferson, Edmund  
Randolph and Timothy Pickens.

On June 30, 1930, there remained  
outstanding a total of \$1,055,000,000  
old-size currency, about 126,000,000  
pieces. This had been further re-  
duced on October 31, 1930, to nearly  
\$880,000,000, or about 108,000,000  
pieces. Since January 1, 1930, the  
old-size currency has been canceled  
as received. The first issue of the  
small-size currency was inaugurated  
July 10, 1929.

## Brings Blessed Relief To Well Known Erie Lady

Famous Nu-Erb Medicine Again Highly Praised—  
Indigestion, Stomach Distress, Nervousness  
and Rheumatism Quickly Relieved.

MRS. MARGARET DAVIS

No more convincing proof of the  
merit of any article can be offered,  
than the true statements of those  
who have used it. In thousands of  
cases Nu-Erb has brought amazing  
relief from stomach, kidney, liver  
and bowel troubles, nervousness,  
rheumatism and neuritis. If you  
suffer from such troubles, learn  
about the wonderful new medicine

from the special laboratory rep-  
resentative, who is now located at  
Eckerd Cut Rate Store. But first  
read the following story that is  
told by Mrs. Margaret Davis, 155  
W. 16th St., Erie, Pa.

"For the past five years, I  
have had trouble with indigestion  
and gas in my stomach. My food  
soured after every meal causing  
hours of misery and distress. I  
was troubled with severe rheuma-  
tic pains through my joints and  
muscles. I suffered from dizzy  
spells, frequent headaches and  
nervousness.

"Although every other medicine  
that I used failed to help me, Nu-  
Erb has completely overcome the  
indigestion and although I eat  
most anything I like, I am never  
troubled with gas or sourness. The  
rheumatic pains have practically  
all disappeared and I am no longer  
bothered with dizzy spells or  
those splitting headaches. My  
nerves are steady I sleep better at  
night and I feel better in every  
way than I have for many years."

Nu-Erb is being especially intro-  
duced in New Castle by Eckerd Cut  
Rate Store. Go see the Nu-Erb  
Man now located there and let him  
explain to you the merits of this  
remarkable medicine.

## A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to se-  
rious trouble. You can stop them  
now with Creomulsion, an emulsified  
creosote that is pleasant to take.  
Creomulsion is a medical discovery  
with two-fold action; it soothes and  
heals the inflamed membranes and in-  
hibits germ growth.  
Of all known drugs creosote is re-  
cognized by high medical authorities  
as one of the greatest healing agencies  
for coughs from colds and bronchial  
irritations. Creomulsion contains, in  
addition to creosote, other healing  
elements which soothe and heal the  
inflamed membranes and stop the ir-  
ritation, while the creosote goes on to  
the stomach, is absorbed into the  
blood, attacks the seat of the trouble  
and checks the growth of the germs.  
Creomulsion is guaranteed satisfac-  
tory in the treatment of coughs from  
colds, bronchitis and minor forms of  
bronchial irritations, and is excellent  
for building up the system after colds  
or flu. Money refunded if not re-  
lieved after taking according to direc-  
tions. Ask your druggist. (adv.)

TEN OTHERS ARE  
BEING HUNTED

(International News Service)  
PITTSBURGH, Feb. 2.—Police launched a widespread search through the tri-state district today for the companions of Walter A. Thompson, 31, shot to death early Sunday in the home of Adolph H. Giger, of Ross township, the result of Thompson and his friends invading the house in search of vengeance, police say.

Giger and Emil Schoen, reputed landlord of Giger, were held by county detectives today. Both met the quizzing of detectives with steadfast denials that they had fired the two shots from a saved-off shotgun which killed Thompson almost instantly and practically decapitated him.

## Big Banks Combine In Connellsville

Comptroller Of Currency Approves Merger Of Two Institutions

(International News Service)  
CONNELLSVILLE, Pa., Feb. 2.—Under an agreement approved by the comptroller of currency at Washington, the First National Bank of Connellsville today acquired the assets and property of the Broadway National Bank giving the new institution combined resources of \$8,250,000.

Liabilities of the Broadway National Bank were also assumed. The business of the two institutions will be carried on in the rooms of the First National Bank under the name of that institution.  
John R. Byrne, former legislator and prominent figure in Fayette county political activities, was president of the Broadway Bank, and his son, Thomas R. Byrne, was cashier. Directors included M. E. Reid, F. W. Byrne, F. F. Byrne, W. W. Seaman and Dr. V. P. Pisula.

B. F. Keister is president of the First National Bank and Charles H. Loucks is vice president and cashier. Directors are Clay F. Lynch, Frank P. Rush, L. P. Stoner, Fenton O. Keister, George K. Brennen, H. Vinton Overholt and C. McK. Lynch.

The Broadway Bank was recently held up and robbed of \$20,244 by an unapprehended bandit.

## Retail Trade In Pittsburgh Area Displays Pick-up

(International News Service)  
PITTSBURGH, Feb. 2.—Retail trade in the Pittsburgh district displayed about the normal seasonal pick-up for the December period, but the dollar volume of sales was substantially below that of December, 1929, according to the monthly survey issued today by the Pittsburgh Business Review, publication of the Bureau of Business Research of the University of Pittsburgh.

A gain of 52 per cent was noted in December sales of the 126 retail stores reporting to the bureau as compared to the November sales, but a 12 per cent drop from the volume of business reported in December, 1929, was indicated.

Gains were shown in the entire eight lines included in the retail group as compared to November. All lines, except dry goods, however, reported declines from December, 1929, with total sales of 126 stores in 1930 showing a 74 per cent decline from those of the year earlier.

Retail drugs was the only line to show a gain for the year, with an increase of 2.5 per cent over the previous 12 months being noted.

## Street Car Men Prevent Hold-Up

Street Car Motorman And Conductor Out-Smart Hold-Up Man

(International News Service)  
UNIONTOWN, Pa., Feb. 2.—Outdistancing an armed bandit who sought to hold him up at a signal stop, Earl Robinson, a street car conductor, with the aid of a motorman who saw the attempted robbery in his mirror, today had foiled the thug and saved a large amount of money which he had at the time.  
The car stopped at the Davidson siding, near Brownsville, last night. Roy Jolley, the motorman, started the car after stopping for the signal lights, while Robinson remained outside. As the bandit voiced his demands the conductor made a run for the car which had already started and escaped his pursuer.

**MANY DOG TAGS SOLD**  
The dog license sale of January reached the 630 mark which is 200 less than the sale in 1930. The purchase of tags is considered remarkable in view of the attitude taken in 1930 when over 1000 dogs were killed. Owners unable to pay tax told officers dogs were strays and had them shot. Others became so poor they could not feed them and asked that they be killed.

**BIG TAX UNPAID**  
Mercer County commissioners have filed legal papers holding county tax collectors to a debit of \$100,000 in unpaid county tax. Of this amount almost 90 percent is that of 1930.

During this week the 48 collectors of the county must arrange to secure their exonerations for 1931 otherwise they will be held for the tax payments.

**BULL ASSOCIATIONS MEET**  
The five bull associations of Mercer county will hold organization meetings this week. R. R. Welch of the bureau of extension work of State College will be here for the term to make addresses. Welch is well known in the county from his many years of activity at Grove City where he headed the extension work of the creamery.

**PLAN ROUND-UP**  
The round-up of 16 county High schools at Grove City on April 17th where at 5 P. M. in the high school auditorium will be held a literary contest will be the eighth annual of the Mercer County Debating League.  
Winners will be named in oration, essay, recitation other forensic entries and music. Contests in spelling, history, algebra and other familiar subjects take place in the afternoon. Medals will be given winners.

## THE PARENT PROBLEM

## Don't Tease Young Child About Fears

Dr. Myers Gives Program To Guard Against Fright

By GARRY C. MYERS, PH.D.,  
Head Division Parental Education,  
Cleveland College, Western  
Reserve University

The babe at birth responds in a rather definite way to shock. We do not know how he feels, but we know he acts much as adults do when they are frightened. After a day or two he makes a similar response to loud and sudden sounds.  
He is not by nature fearful of a thunder clap, of the dark or of strange things or animals. But by and by he may be. He may learn by accident or from suggestion, made by older persons. If, particularly when he is alone, there is a sudden noise like a clap of thunder, it may greatly shock him, causing him thereafter to be very fearful of such sounds. While alone in a dark room such a fright may make him fearful always when alone in an unlighted room.

A worm, or bug, or snake, or dog or rabbit may be very fascinating to him; but its quick movement, or some shocking sound associated with it, or some fearful conduct by an older person, may arouse strong fears in the child of such things.

## Stop That Cough

Extra Quick Relief From New Sipping Treatment

Whether your cough is just a slight, irritating hack or so hard and stubborn that every spasm fairly takes your head off, you can now sip that cough away.  
Just start sipping Crea-Lyptos, a modern scientific treatment expressly designed for the throat, and sold by druggists everywhere under a money back guarantee to end coughs due to colds or too much smoking.  
Sipped according to the simple directions, this safe, soothing, healing, potent remedy hits the spot. Crea-Lyptos penetrates, saturates, clings to the infected tissues just as if your throat had been "painted."  
Get a bottle of Crea-Lyptos today from Eckerd's so that tonight you can enjoy the sound, refreshing sleep that a comfortable throat gives. Remember, no cost if Crea-Lyptos doesn't stop that cough.

## Another Duchess?

Arrival in the United States of the Duke of Leinster, first duke of Ireland, is believed to portend wedding bells for Mrs. Huguette Clark Gower, multi-millionaire daughter of the late Senator William A. Clark, Montana copper king, and the duke. The couple is shown above.

Nothing more attractive to the average child of two or three than an earthworm or a snake. But let some one say to the child playing with such a harmless creature, "Throw it down, it will bite you," with the usual gestures of disgust accompanying such a stupid statement, and it may be enough to arouse a life-time fear of such things. If a dog, very interesting to the baby, should bark at him or jump against him a similar fear may be created.  
A child having no fears of such things until the age of four or five may suddenly acquire them through some unfortunate experience. Through fearsome fairy tales, thought frightful superstition of hired help, or a playmate no end of damage may be done. How very hard it is to protect the young child against bad suggestion about the dark.

The child of three or older, with a keen imagination, may become afraid of the things he thinks he sees or hears in the dark. If then he asks to have the light on in the hall with the door ajar, accede to his wishes, without remark about his fears. Gradually you can decrease the light and reduce the width of the door is open until it can, by and by, be closed. Provide a cord or chain by which he can quickly turn on the light when he feels uncomfortable, or, give him a flashlight. Better, first have him operate the flashlight in a dark room with you so that he adjusts himself to its shadows.

If the child whom you ask to run an errand to a dark room says he is tired, accept his explanation. If you can induce him to go by means of reward, very well. Play games with him in a dark room, having him find objects in the dark, find the light button, turn on the light or turn it off. See that no one laughs at him or teases him about his fears, no matter what his age may be.  
When domestic help are taken on instruct them first of all not to drop remarks about the morbid, gruesome, or other fear inspiring thing. Read many fairy tales to him, but avoid fearsome ones.

## Rogers Raises \$82,000 On Tour

Humorist Successful In Campaign For Funds In Texas

FORT WORTH, Tex., Feb. 2.—The efforts of Will Rogers, cowboy humorist, actor and writer, to bring relief to drought and unemployment sufferers in Texas are estimated to have netted approximately \$82,000 in one week.

Beginning a state-wide speaking tour of the state in Austin last Monday, Rogers swung rapidly through 13 cities, making the jumps for the most part in a navy airplane piloted by Captain Frank Hawks but resorting to automobiles when flying conditions were unfavorable. Today he will open a tour of Oklahoma and Arkansas with three and four performances scheduled each day.

## Falls Into Camp Fire, Badly Burned

ZANESVILLE, O., Feb. 2.—Lee Golden, 40, of Parkersburg, W. Va., is in a critical condition in Good Samaritan hospital here from burns received when he fell into a campfire. His clothing was burned from his body. Police found him 50 feet away from the embers of the fire where he was rolling in sand. No hopes are held for recovery. A boy heard his cries and gave the alarm.

## Daring Holdup Of Hotel At Monessen Nets Bandits \$500

Six Armed, But Unmasked Bandits Invade Hotel And Stage Daring Holdup

(International News Service)  
MONESSEN, Pa., Feb. 2.—Six armed bandits, working with a celerity that stamped them as professionals, early today held up several men and women guests in the Victoria hotel and escaped with loot estimated at \$500 in currency.

The men confined their loot entirely to cash, police were told. Jewelry and other valuables were passed up.

Telephone wires were cut and all communication with the outside was severed before the six men, armed but unmasked, entered the lobby.

While one of the bandits covered the guests with a gun in each hand, his confederates forced all persons in the lobby to hand over their money.

Several of the bandits searched guest rooms for additional cash while the lobby holdup was in progress.

Warning their victims to make no outcry, the men ran from the hotel, jumped into an automobile and sped away.

The automobile last was seen heading in the direction of Donora, according to a police report.

## V. F. W. HEAD ON RADIO TUESDAY

National Broadcast Will Feature Membership Program Of V. F. W.

World War veterans will be interested in the Nation-Wide V. F. W. Mass Meeting, which will take place Tuesday evening at 8:30, when the National Broadcasting Company will put on a program over a network of 40 stations throughout the country, in the interests of the National Membership Campaign of the V. F. W. which is now under way.

Commander-in-chief Paul C. Wolman will be master of ceremonies, and the following program will be rendered:

8:30—Commander-in-Chief Wolman.  
8:32—United States Marine Band.  
8:35—General Frank T. Hines, Administrator of Veterans Affairs.  
8:44—Admiral Robert E. Coontz, Junior Vice Commander-in-Chief.  
8:45—United States Marine Band.  
8:50—Senator David A. Reed, Chairman Military Affairs Committee, United States Senate.  
8:56—United States Marine Band.

The Veterans of Foreign Wars of the United States has set a goal of 50,000 new recruits in their 1931 campaign, and the Harry L. McBride Post of New Castle hopes to attain their quota of this goal during the next few weeks.  
Carl Staebler is chairman of the membership committee and about twenty live-wire members of the post are assisting him in the local campaign, which is beginning to produce some real results.

National Chief of State, James E. Van Zandt, former Department Commander of Pennsylvania, is National Chairman of the membership drive. Prizes, including cash and gifts of merchandise totalling \$1,000, will be distributed to the winning recruit getters in the plan outlined by Chief of Staff, Van Zandt.

## Second Semester Starts At College

Enrollment Will Be About Same As During First Semester

(Special To The News)  
NEW WILMINGTON, Pa., Feb. 2.—Registration for the second semester at Westminster college started this afternoon at 2 o'clock and continues until 4:30. Tomorrow morning will find instructors at their desks to receive students in the morning and the afternoon.

The fact that most of the members of the senior class, three-quarters of whom start their month of cadet teaching today, were registered Monday and Tuesday of last week will aid materially in avoiding the rush of under-class enrollment which ordinarily takes place. Most students plan to be on hand this afternoon for registration.

Second semester classes start Wednesday morning at 8 o'clock. The first recess following the start of the semester comes Saturday morning, February 21, when classes will run only until 11 o'clock. A special Washington's birthday chapel service will be held at this time. The spring recess will start Friday, March 27 at noon, and will extend until Monday, April 6 at 4:30 p. m. A few students who were enrolled last year but who did not return to college for the first semester are enrolling today. Another group of mid-year graduates of high schools are also enrolling. These will about balance the loss of mid-semester completion of graduation requirements of 10 seniors.

## Husband Stricken, Wife, 72, Collapses

UNIONTOWN, Pa., Feb. 2.—Physicians today held no hope for the recovery of Joseph Walton Jones, 76, well known local man, whose wife, Lucinda Hatfield Jones, 72, died from shock Saturday following his attack. Mrs. Jones collapsed when she tried to converse with her stricken husband. The Jones children, Earl and Lindsey, who went down town following their father's collapse, found their mother dead upon their return.

(International News Service)  
WARREN, Pa., Feb. 2.—A round century of service in the financial world was celebrated here today by two Warren bankers, each with 50 years of active banking work behind him.  
C. T. Conarro, cashier of the Citizens National bank, and G. B. Ensworth, vice president of the Warren Savings Bank Trust Company ended their "first 50 years" today.  
As youths, Conarro and Ensworth entered the financial world on the bottom rung of the ladder and worked their way to their present two-ward positions.

## Ground Hog Lodge Convenes During Day For Annual Session

(International News Service)  
QUARRYVILLE, Pa., Feb. 2.—Properly prepared by fast and meditation, the slumbering ground hog lodge of Quarryville, gathered here today solemnly to pay homage to its patron—the ground hog, patriarch of all weather prophets.

Sixty members of the lodge, mature in years, serene in their faith, made up the delegation which met here, were marshalled into squads of six each with patriarchs and prophets of the lodge attending, to move stealthily on ground hog holes where their prognosticator was due to put in an appearance sometime about noon.

Founded by Jack Johnson, veteran Lancaster newspaperman, the lodge believes implicitly in the virtues of the ground hog as the greatest of all weather prophets.

Cardinal article of their faith is that the modest animal foretells, with greatest accuracy, the sort of weather which will prevail after Feb. 2.

"When the ground hog from his lair comes forth to seek a change of air and see about the weather, he sniffs the breeze and looks around, he scans the sky and then around, and puts the facts together. He knows if fog obscures the sun the course of winter has been run and spring will soon be here. But if the sun should shine today, springtime is full six weeks away, nor sooner will appear."

Ground hog holes have been marked for weeks, in preparation for today's solemn observations.

With the ground hog emerging,

the patriarch of each squad will stand at attention while the prophet constitutes himself a reception committee to note the movements of the great guesser of wind and weather.

Dispatch bearers then bear reports on each ground hog to the defender of the faith, who remains in seclusion here, attended by a guard of honor.

Field reports from the ground hog gazers are expected to be in by 1:30 p. m. Then twelve of the ranking officers of the lodge go into a huddle and with intricate mathematical formulae, plot out the ground hog's guess and relay it to the faithful.

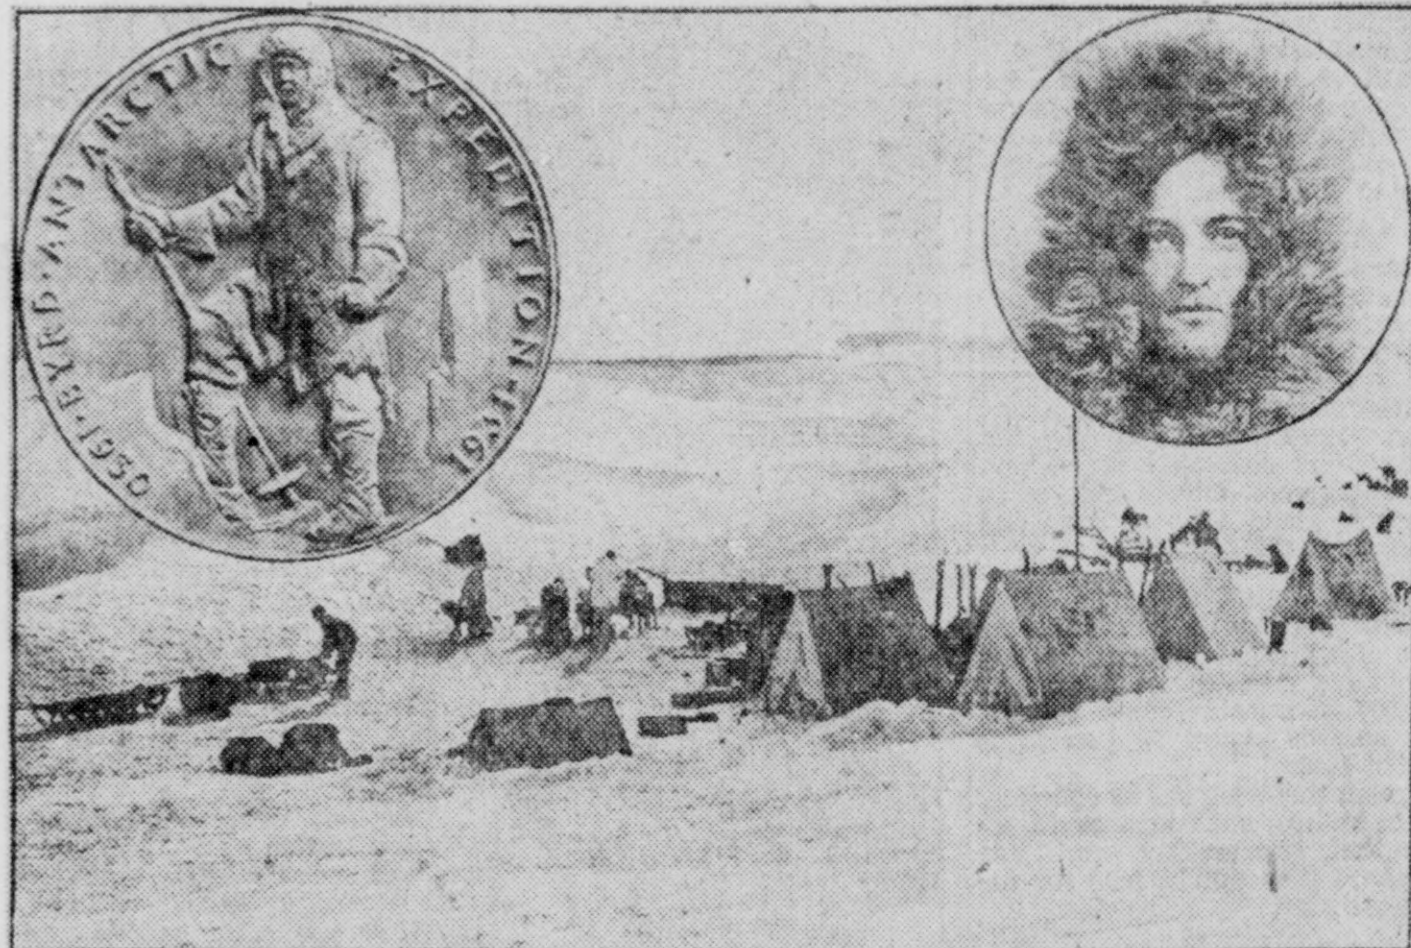

Instantly, members lay plans for spring activities and "outsiders" watch anxiously to see whether members drag out the lawn mower and sharpen blades, mix paint or wear calves or—on the other hand—saw wood, lay in more coal and kill a pig to fashion more sausage—for their actions indicate great secret released by the ground hog.

Tonight, the faithful will assemble for their annual banquet, where, with night-caps on head and no fear of after dinner speeches, they will dine on the fat of the land—with no ground hog on the menu.

Then new members of the exclusive organization will be initiated. At this year's meeting, Guy K. Bard, Democratic candidate for Lieutenant-governor in the last campaign, will be one of the initiates.

And the defender of the faith promises that "the work of making a groundhog of a lawyer is one of transcendent beauty and tremendous impressiveness."

## Medals Reward for Year in Antarctic

The members of the Byrd Antarctic expedition, which spent more than a year isolated on the Ross Barrier to accomplish the flight to the South Pole, will be given medals of the design shown at left above by the Navy Department in recognition of their feat. The scene shows how the expedition worked and lived as "Little America" was being constructed. Rear Admiral Byrd (inset, at right) will receive one of the gold medals. Others will be cast in silver and bronze.

## When Broadway Glowed Brightest

Scores of pieces of apparatus and hundreds of firemen were called out to dim the brightest light on Broadway when the block long Lincoln Square Arcade in New York caught fire. The picture at left shows water towers fighting the blaze, in which a score of persons were injured. At right, above, a policeman is carrying out an overcome woman; below, a terrified rescued woman whose home was destroyed by the flames.

## "Flying Ocean's Easier"

Maurice Bellonte, French flier who recently flew across the Atlantic, gave up skating shortly after this picture was made at Chamonix, France. In spite of the charm of his fair companion, he decided he'd rather take a plane across the ocean. "It's safer!" was his verdict.

## Braves Rugged Andes to Save Woman's Life

The rugged Andes Mountains had no terrors for Irving G. Hay (above) a member of the Shippey-Johnson Peruvian expedition, who proved a hero of the air when he flew an airplane 800 miles along the treacherous mountain range. Hay hopped off from Lima as word was received that a woman was dying of poisoning 400 miles from the Peruvian city, bringing the patient to medical aid.

## Bus Accident Pupils Return

All But 13 Of Those In Mt. Jackson Accident Back In School

The North Beaver Township school board today had set no time for continuing its probe into definite facts relative to the overturning of the Hope district school bus, carrying 37 boys and girls to their Mt. Jackson classes, along the Enon-Mt. Jackson highway, last Thursday.

Principal P. F. Foltz at the same time announced that all but 13 of the pupils who were passengers on the bus, all of whom suffered minor injuries or shock, were in their classes today.

Matilda Nemeth and Margaret Salata, the two who were more seriously hurt, are fast recovering in the Jameson Memorial hospital, Mr. Foltz said. He visited them yesterday and believes they will be there but a short time longer.

On the night of the accident, at a special meeting called to determine the facts in the case, the school authorities heard the testimony of several witnesses. However, it was decided to continue the probe at another meeting to be called later.

The school bus, while passing a slag truck going the same direction, went off the slippery concrete in some manner, skidded and overturned.

## Trusteeship For Funds Is Ended

Trust Created By Harry G. Euwer For Wife Has Fulfilled Its Mission

Petition for revocation of trust and a release of the Lawrence Savings and Trust Company, trustee, was presented to court this morning in the case of a trust, created in 1916, by Harry G. Euwer for his divorced wife, Leah Euwer, and children, Mary Lou, Eleanor and Jean Euwer.

At the time the trust was formed Mr. Euwer conveyed property in the second ward to J. V. Cunningham as trustee. This property was afterwards sold by the trustee to David and Margaret Williams for \$7,500. The money was paid into the Lawrence Savings and Trust Company to hold as trustee.

The petition presented this morning stated that all parties concerned have become of age and want the money. The petition was granted.

## BACHELOR CHOOSES GOTHIC DECORATIONS FOR NEW YORK APARTMENT

Modified Gothic decorations were chosen by William Ryle for his New York apartment overlooking the East River. The apartment consists of living room, den, dining room, master's bedroom, and guest room. Pictured here, right, is a section of the den with red leather chairs and couches and low tables. Center, is a portion of the living room with carved wood and plaster used for walls and ceiling. Decorations in this room were brought from England and made appropriate for modern living conditions. The dining room is left with paneled walls with simple moldings, the Gothic style suggested in the backs of the eighteenth century chairs and in the tracery on the doors of the china cabinets. Art supplied to Central Press by Home & Field magazine.

## Cornerstone Laying At Grove City Will Be Held Wednesday

President Ketter Announces  
Date For Laying Of Memorial  
Chapel Cornerstone

GROVE CITY, PA., Feb. 2.—President Weir C. Ketter of Grove City College announced today that the ceremony of laying the cornerstone of the new Memorial chapel and Science hall, under construction on the campus, will be observed Wednesday, February 4, at 2:00 p. m. An appropriate program is being formulated for the occasion. The laying of the 55-year history of the College may adequately be observed.

Alumni, undergraduates and townspeople will join with the faculty in celebrating the occasion which marks the first major expansion program for many years. When the cornerstones are laid, Grove City College will be started on a development plan that eventually will change the entire physical appearance of the institution and for which nearly three-quarters of a million dollars has already been appropriated in building contracts.

W. A. Harbison of New York and R. W. Harbison of Sewickley will represent that family in the exercises at the chapel. The building is a memorial to the late Samuel Harbison of Pittsburgh one of the original trustees, and Mrs. Harbison, Mr. Wilson A. Campbell of Pittsburgh will represent the trustees at the cornerstone laying for the science hall.

Excavation for the third building to be erected on the immediate program, a new men's dormitory, has been started. The three buildings, with the present men's dormitory, will form the nucleus for a new campus removed from the present buildings. All are located according to a comprehensive program outlined by the Orestead Brothers, landscape architects of Brookline, Mass., which allows for growth of the institution for many years.

The corner-stone laying event will be the second gathering of trustees on the campus. The first occurred on October 13th last, when Harry J. Crawford of Emmonston, a trustee, broke ground for the chapel, and Prof. H. W. Harmon of the science faculty performed the same task at the site of the science hall.

# MODERNIZE YOUR HOME!

*A Home Will Not, Forever, Fulfill New Demands  
That Are Made Upon It!*

Perhaps five or ten years ago your home was of ample size. Its fixtures, appointments, woodwork and other advantages were possibly modern then and up-to-date, giving you a feeling of distinction in its ownership.

Time has changed demands. And it certainly has altered fashion and brought forth new means for making the home more comfortable for every member of the family.

For the added comfort and convenience it will afford why not modernize now, by adding a new addition, renewing the roof or the staircase or by enclosing the porch.

And, too, a new piece of Furniture will help bring the home up-to-date.

## Thirteen Hundred Hear Evangelist On Sunday Night

Dr. L. K. Peacock Opens Union Evangelistic Campaign In Ellwood City

Evangelist Emphasizes Necessity Of Earnest Prayer For Church Members

ELLWOOD CITY, Feb. 2.—Probably one of the greatest congregations ever to assemble for an evangelistic campaign was that of Sunday evening at the United Presbyterian church at the opening of the Union evangelistic campaign, when the Rev. Dr. Luther K. Peacock, well-known evangelist, delivered his first message. Over 1300 people occupied every available space in the church auditorium.

The evening's program opened with a selection by the choir and then Dr. Peacock led the singing in which everybody participated. Immediately following he gave a stirring address.

Dr. Peacock declared that men live to pray more, and do less talking, but they must know how to pray. That is a weak point of modern Christianity, man claims, he knows how to pray, but he does not pray in earnest. Some of the greatest men of the world were men of prayer; Gladstone, St. Paul, Washington, Lincoln, and Jesus Christ and innumerable others prove the case. "Christ, went on the speaker, was a very busy man. He would heal the sick, pacify the poor, feed the hungry, and yet he would spend whole days up in the mountains praying and pouring out his soul to his 'Almighty Father.' It was Christ's command that man should pray. If it was suitable for him, why not for us?"

The people have come to neglect the church. They may go out and enjoy any thing else, but in the "House of God" they become tired and bored and restless, when the minister speaks a little longer than scheduled. A person will not be disappointed in the church if he goes there with a prayer on his lips and to worship God. The preacher is not there for his own glory as many people think, but for the glory of God. Requests of God before granted must be made in real earnest prayer.

Philip Brooks, one of the greatest preachers of his generation spent hours in earnest prayer and received the blessing of God and his wishes granted.

"We thought that we were a great country and had so much prosperity that other nations received our help. But now things are different, the country is stricken and the people are turning to charitable organizations for help. In a certain drought stricken area the people had no faith in the doings of the Red Cross until the organization had come to drag them out of the abyss of absolute poverty. Then they realized what it means to have faith."

Roger Babson, the great statistician, says that there will not be any more prosperity until we get back to God and all have time to pray. Dr. Peacock then stated that there is not in the world a real true man who does not pray. The majority of the people have not very earnestly been in the service of God. Or as the doctor said, "Just skinning the wire," that is unfaithfully attending church. The church will mean little to a person if he does not intend to carry on the work of Christ. A man is improved because of his faith in God and should be encouraged to attend church.

In closing Dr. Peacock stressed that less talking and more praying will avoid many a church, matrimonial, and political controversy. He pointed out that every movement of the church was preceded by a prayer revival and that in the United States in '37 there was a great revival of the church. The people were so truly and earnestly in the service of God that there were not prisoners for the jails. "And" concluded the speaker "what this country needs now is a great spiritual awakening to stop the present crime wave."

The next service will be held to-night at 7:30 o'clock in the United Presbyterian church.

## Y. I. C. Club Has Meeting Sunday

ELLWOOD CITY, Feb. 2.—The newly organized Y. I. C. club of the Blessed Virgin Mary Catholic church held one of its regular meetings on Sunday afternoon in the basement of the church.

The president of the club, "Chief" Parillo, opened the meeting with a brief talk on the social aspirations of the club and its moral. Then the new rules were discussed and amended by the members to satisfaction.

The club will meet again on Sunday, February 15, at 1:45 p. m.

## ANNIVERSARY IS CELEBRATED

Young People Meet During Afternoon At M. E. Church

ELLWOOD CITY, Feb. 2.—Over 100 members of societies from Ellwood, Wurttemberg, Knox and North Sewickley were present in the Methodist Episcopal church Sunday afternoon to celebrate the fiftieth anniversary of Christian Endeavor.

The devotional period was in charge of Gordon Welch, Don Stevenson read the scripture lesson. Bernice Porter played a piano solo and then occurred discussion of the organization's slogan, "For Christ and the Church." Several members gave talks on the subject. Katherine Morrison, president of the Reformed church, Y. P. C. U. spoke on the first Christian Endeavor organization which was led by Rev. Francis Clark in Portland, Maine. There were 57 in the first society and the constitution and pledge remain the same as when it was drawn up.

Arthur Hoenstein, president of the Lutheran church, told of the World's Christian Endeavor Convention held in Berlin, Germany last summer and of the thousands of members of the organization from all over the world were present. He also told of how the organization has grown in 50 years.

Lois Gillespie member of the Baptist Y. P. Union explained the part the members of the society have now to play and what they could do to carry on the good work of the organization.

Grace Harbison, president of the Y. P. society of the U. P. church gave some suggestions for carrying out the Christian Unity of the league. In order to carry this she prescribed debates and more social meetings. It was her view that a union meeting of the organization should be held quarterly.

It was announced that any society not affiliated with the Christian Endeavor might do so.

The program closed with the song "Blessed Be the Tie That Binds" and then the Rev. Arthur M. Stevenson gave the closing prayer.

## Mrs. S. Mondell Dies Saturday

ELLWOOD CITY, Feb. 2.—Mrs. Stephen Mondell passed away Saturday evening at the home of her son, John, on Line avenue, after an illness of two years.

The deceased had come to this country a number of years ago from Hungary. She was popular among her friends and was deeply loved and respected.

She is survived by her husband, Stephen, 3 sons, Stephen Jr. and John of Ellwood City, and Joseph, of Deegan, Pa., one daughter, Mrs. Mitchell Potyka, of Butler; 17 grand children and 2 great grand children.

Funeral services will take place Tuesday at 2 o'clock from the Hungarian Presbyterian church of Ellwood. Interment will be made in the Locust Grove cemetery.

There were many floral tributes paid to the deceased by the relatives and friends. She was 70 years of age upon her death and has left many survivors.

After services in the church the funeral procession proceeded to the Locust Grove cemetery where interment took place.

## Fine Congregation Attends Services

Missionary Convention Of Alliance Under Way At Tabernacle

ELLWOOD CITY, Feb. 2.—A fine congregation was present Sunday at the annual missionary convention of the Christian and Missionary Alliance churches at the tabernacle on Beaver avenue. There were services in the afternoon and evening.

Rev. Adolph Mahler, Hebrew evangelist, delivered a stirring address to which there was a big response by the congregation.

Then Rev. Stroh, missionary to the Philippine Islands, wearing one of the costumes of the country and using a map, gave an interesting talk on the native life. He had become familiar with this as he traveled in behalf of the gospel.

Following this the evangelist and the pastor, Rev. T. J. Keegan, sang a request number, "The Prisoner's Victory."

In the evening services Rev. Mahler's subject was "Practical Worship," which was followed by a vocal selection. Then Carl Mahler son of the evangelist, rendered a piano-accompaniment accompanied by the musical saw. This was very much appreciated by the congregation. The services then ended with a prayer.

The convention will continue to-night and will open with song services. Rev. Stoddard and Rev. Stroh will preach at the services. Rev. Stoddard is the assistant district superintendent of the Christian Missionary Alliance. The convention will continue through Wednesday night.

## Manhattans To Meet Jeanette

ELLWOOD CITY, Feb. 2.—The Ellwood City Manhattans will invade Jeanette tonight, as they will battle the Felders at the Delvito auditorium. The Felders have yet to win a game.

The Manhattans who had dropped a fast and exciting game to Charleroi on the latter's home floor Saturday night will endeavor to stay in the running for the County League title when they engage the tail holders this evening.

The Charleroi quintet had become to be a more dangerous foe in every new contest and exceedingly dangerous on their home floor. The Ellwood boys had traveled to Charleroi with great confidence in view of the two previous defeats it administered to the club. This had nearly ruined the title hopes for the Manhattans but there is still a chance. The local club will have to win all of its future contests and somebody will have to beat the Mettes. This would cause a three way tie and the Manhattans intend to carry out their end of the campaign.

Advance dope tonight on the game with the Felders place the Ellwood quint at top favorites. It is expected that the same lineup will start again this evening.

SLIPPERY ROCK

ELLWOOD CITY, Feb. 2.—On Wednesday the Ladies' Aid Society will hold an all day meeting at the church. The Work committee will be comprised of Mrs. Emma Brackman, Mrs. Robert Brown, Mrs. Joseph Cole, Mrs. Dan Cole, Mrs. Frank Coleman and Mrs. Clyde Cunningham. There will also be an evening prayer meet at the home of Walter Steele of Marquis Stop.

Thursday the Happy Hour Sunday Class will hold its regular meeting at the home of Mrs. Frank Mors at Moravia. The joint hostesses are Mrs. John M. Houk, Mrs. R. E. Newton and Mrs. Edna Henderson.

PROVIDENCE BAPTIST

ELLWOOD CITY, Feb. 2.—The district number two of the B. Y. P. U. will meet on Tuesday evening at 7:45 at the Beaver Falls Baptist church. There will be a prayer meeting at the parsonage Wednesday evening at 7:45.

## Specialty And Office Teams Win In Shelby League

Office And Hot Mills Game Is Decided By One Point—Score 34-33

ELLWOOD CITY, Feb. 2.—A fair audience was present in the Shelby auditorium to witness the triumph of the Specialty and Office over the Mechanicals and Hot Mills respectively of the Shelby League. The score of the former game of the doubleheader was 33-27 for the Specialty and of the latter 34-33 for the office.

The Mechanicals had put up their best game of the season when they proved a threat to the league winners last year, Specialty. The Office upset the dope upon defeating the strong Hot Mills quintet by one point. The result of these contests does not alter the standing of the teams very much. The Hot Mills still maintain their hold on first place in spite of dropping Saturday's game, because of administering two forfeits to the Specialty and one to their victors previously. The Specialty also defeated the Office.

In the curtain raiser Specialty had set a fast pace by leading in the initial period by a 11-2 score. A fast passing attack also netted them points upon desire. The Mechanicals were able to hold their own in the ensuing period, both collecting nine points and the score at half way was 20-11. In the third quarter the champions outscored their opponents by amassing 13 points to seven for the Mechanicals. The score at the end of the period stood at 33-18. Several times the Mechanicals had deadlocked the game, but their opponents managed to break it and take the lead again. At the final whistle the Mechanicals were again outscored 10-9 and were defeated by a 33-27 score.

Boone, Hennon and Patterson were the highlights in the Specialty victory, while Mayne, Ferucci and Kimes were outstanding for the losers.

Second Game

After the second game was in progress it became apparent that the Hot Mills passers were taking the affair too lightly and as a result lost it. The winners had maintained the lead at the end of every half. It wasn't until the second half the Hot Mills began to realize the predicament they were in and decided to get some points. The Office had taken the lead in the first two periods of the contest by a 7-4 and 17-12 score respectively. The last half of the game was a genuine thriller. The lead was constantly switching and fancy shots were being made. Upon resumption of the game in the third quarter the two teams seemed to alternate in the scoring until Clyde brought the Hot Mills within a point of the Office lead and immediately after MacDonald switched this upon sending the ball through the hoops from under the basket and placing the Hot Mills in the lead by a 22-21 score. But this was short lived, for Blandine registered from the court and brought the Office to the fore again. The contest had become heated and the two teams were struggling hard for the possession of the ball. The game had become deadlocked at 25 all and later at 30 all. There was little time left to play and both teams were getting desperate. The only hope now was for somebody to sink a long shot and Reilly of the Office realized this and accomplished the feat. Immediately following MacDonald was up and made a free throw which he countered up and advanced within one point of the Office lead. Then Clyde, with a beautiful shot from the center of the floor brought the Hot Mills to the fore. Then with just 20 seconds left to play Elder of the Office repeated Clyde's feat and won the game by a 34-33 count.

Reilly had starred for the victors with five buckets, while Clyde and Ferucci were the outstanding performers with four apiece for the losers.

All members of the evangelistic services will be held from this church with special nights reserved for the different congregations. The spacious U. P. church will probably again be filled to capacity this evening upon the opening of the services. There will also be some singing of some new evangelistic songs hitherto unheard here.

## Nickel Plate Asks Trackage Rights

(International News Service)

WASHINGTON, Feb. 2.—The Nickel Plate railroad today, asked the interstate commerce commission for authority to acquire trackage rights over the Erie in order to serve the new food terminal now being constructed in Buffalo, N. Y. Both roads are controlled by the Van Sweringen interests.

## SOUR STOMACH IS DANGEROUS

Get Rid of Acid Before It Does You Harm

Don't let indigestion spoil your enjoyment of good food, sap your vitality and shorten your life. Get rid of the sour, burning acids that are constantly irritating your stomach, forming gas and causing pain. No matter how severe or chronic your acid stomach condition may be, you can speedily remove the cause by taking a little "Bisurated" Magnesia after meals or whenever pain is felt. Instantly excess acid is neutralized, fermentation stops, gas vanishes and pain disappears. "Bisurated" Magnesia, which is always safe and harmless, is used daily by thousands, recommended by physicians, and is obtainable in either powder or tablet form from New Castle Drug Co., and reliable druggists everywhere. Get a package today, use as directed, and get rid of your acid digestive troubles before they cause you serious harm.

## "Men Are Strange Creatures"

WHAT AN unmerciful twitting they give women about their bargains! And how they love to harp on "vain as a woman" when wives and daughters are successful in looking their best! . . . But to hear them at the office is another story. It's "my wife this, and my wife that"—with evident pride.

Vain? There's nothing quite so vain as men who have attractive and accomplished wives. How their wives manage the home—how they plan and buy—is a source of constant wonderment and appreciation. Nothing pleases a man more than the knowledge that his wife is a shrewd manager and a deft hostess.

But what is so amazing to men is commonplace to women. Women know that shrewd management and good taste are not matters of chance, but qualities to be cultivated—personal qualities that depend upon a thorough knowledge of style and value.

It is not difficult for them to obtain this knowledge. Every day they read the advertisements in the newspapers—printed statements of style, price and value. Statements that are sponsored and signed by companies known for business integrity and style authority.

Guided by this knowledge, women choose wisely—and receive for their money the highest in quality, the utmost in style.

## Campbell Ready For Speed Test

British Auto Racer Will Attempt To Do Better Than 231 Miles An Hour

### TRIAL SPIN GETS HIM 200-MILE SPEED

By JAMES L. KILGALLEN  
International News Service Sports Writer.

DAYTONA BEACH, Fla., Feb. 2.—"Zero hour" is nearing for Captain Malcolm Campbell, British racing motorist, who proposed to drive a powerful automobile along the glistening sands of Daytona Beach at a speed greater than the world's record of 231 miles an hour.

Captain Campbell is quietly confident. He is "all set" for his death-defying attempt. His long low slung, 1450 horsepower car, Bluebird 2nd, is ready. All he needs is a smooth beach and he will go streaking down the nine mile course at a speed that staggers the conservative mind.

**Trials Start Today**  
Officially the annual speed trials start today. Campbell can make the run anytime in the next two weeks. He has indicated he will waste no time and will shoot down the beach for the record as soon as the sands are in proper condition for the supreme test. Sanction for the attempt has been given by the American Automobile Association.

Race officials, however, do not expect the beach to be ready for three or four days. Last week it was pretty "bumpy" although by Saturday it had improved sufficiently to enable Campbell to make his first and only practice run in the Blue Bird. And to the surprise of the spectators he attained a speed of 200 miles an hour. This fact has caused Campbell's friends to predict that, given a perfect beach, he can step the Blue Bird up to 240 miles an hour. The tires have been tested for a speed of 300 miles an hour.

**Appears Confident**  
Captain Campbell's mental condition is fine. He was as dapper and nonchalant as ever when visited by an International News Service reporter this morning. His demeanor was quiet and restrained, as usual. There was no sign of "nerves". Asked if he had slept well, he replied that he had. "Doesn't the element of danger in driving a car over 200 miles an hour worry you?" He was asked.

"I don't let myself think of disaster before I have a run of this kind," said Campbell. "I rule all such thoughts out of my mind. It does you no good to figure what might happen. If it happens to be my time to go, why I'll go. I'm a fatalist."

Campbell made it clear he has made no predictions as to the speed he will attain. He was disturbed over talk that he would hit well over 250 an hour, maybe 275. Campbell's friends believe if he does only a little better than the late Sir Henry Seagrave's record of 231 miles an hour he will have accomplished a great deal.

It was said on good authority this morning that Campbell will make one more practice run in the Blue Bird before he tries for the record. This run may take place this afternoon, if the beach is in fairly good condition. Campbell wants to be sure about his brakes which were given a considerable racking Saturday when he was suddenly forced to clamp them on to prevent the Blue Bird from crashing into spectators who had raced out on the course as he was coming up the stretch at 200 miles an hour.

## New Castle Meets Zelienople Tuesday

First Game Of Second Half Takes Place On Tuesday Night At Zelienople

Having come through on top in the first half of the race, the undefeated New Castle high school basketball team will start play in the second half of the Section Three race on Tuesday night at Zelienople when the Coach Bridenbaugh machine meets Zelienople high.

Earlier in the season, New Castle handed the Zelienople boys a 49-13 shellacking and the locals feel that they can duplicate the feat. Zelienople will be in there to avenge for the defeat.

When New Castle takes the floor, Francis Wainio and Luther Jove two of the outstanding cagers of the lineup. These two boys played their final game on Friday night against Washington and are ineligible to compete in W. P. I. A. L. athletic events.

Who Coach Bridenbaugh will start in place of his two forwards is not known but it looks as though John Fram and James Shaffer will get the call. On next Friday night when Mars plays here, Regis McAuley will be playing his final contest.

## Baer-Loughran Battle Friday

Former Champion Will Give California Heavyweight Real Test In Bout

By LES KONKLIN  
International News Service Sports Writer.

NEW YORK, Feb. 2.—Boxing fans should learn the Baer truth about Maxie Adelbert, pride of the California Baers, in the coast slugger's bout with Tommy Loughran at Madison Square Garden on Friday night. Loughran, the master boxer, will furnish a splendid foil for the untrained but game cowpuncher, who came out of the west a couple of months ago heralded as a second Jack Dempsey. If Baer can knock out the former light heavyweight champion, he will take rank with the first flight heavyweights.

Even after two fights in the east, Max remains something of a fistie enigma. Against Ernie Schaaf, one of the best of the younger heavyweights, Baer showed that he could punch as well as take it, although he lost the decision.

The Californian tired badly in the latter half of his brawl with Schaaf, with the result that many critics branded him a five-round fighter. Consequently he started slowly against Tom Heeney in his next bout, determined to rate himself along for a strong finish. Old Tom, however, lit into Baer from the opening gong, and was in front on points when he was counted out due to a silly mixup between Referee Jack Dempsey and the timekeepers.

Since Tony's office boying brought him a salary of one dollar a day and baseball paychecks exceed that at least a little bit, you can bet Tony will try hard to stick.

Brooklyn fans believe their new outfielder—Left O'Doul, Johnny Frederick and Babe Herman—will be the hardest hitting trio of gardeners in the National league.

Connie Mack—you may not know—is treasurer as well as manager of the Athletics. Which indicates that despite strenuous duties in piloting the A's to two consecutive world titles, Connie finds time to count all the nickels and dimes.

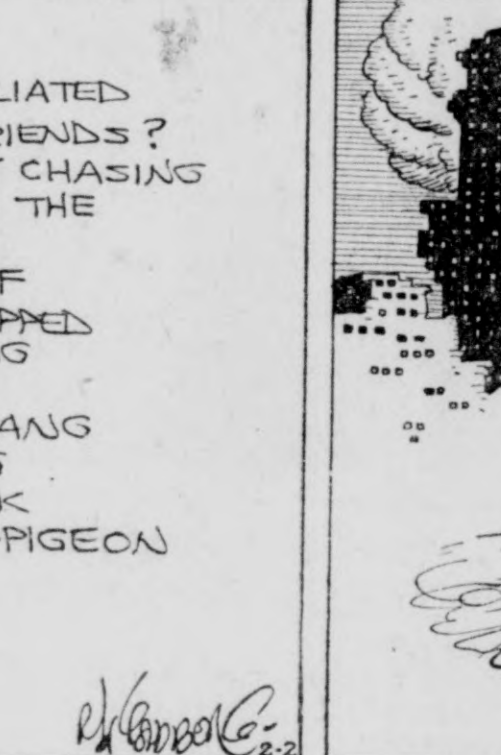

Whether or not Hack Wilson gets his \$40,000 for this season's play, the Chicago Cubs, payroll is expected to exceed that of any other major league outfit, the costly New York Yankees included.

Twenty years ago, when the Cubs were the highest priced ball club doing business, the total payroll never topped \$90,000, which gives you an idea of how salaries have jumped.

If Uncle Wilbert Robinson is ousted after this season, though he wins a pennant—both eventualities are quite possible—he will have the solace of knowing that the same thing happened to Pants Rowland of the 1917 White Sox and Rogers Hornsby of the 1926 Cardinals.

## DODGERS ANXIOUS TO GET PITCHER

(International News Service)  
NEW YORK, Feb. 2.—Reports of baseball trades filled the air today with many magnates in New York to attend the schedule meeting tomorrow.

Only the Robins of the three metropolitan teams are likely to figure in any transactions of any importance, however. Brooklyn is anxious to obtain a left handed pitcher to replace Jim Elliott and will make every effort to swing a deal involving some excess infield and outfield talent.

The Giants could use a pitcher and another outfielder but Manager John McGraw will probably wait until April before taking any definite action.

As for the Yanks, the acquisition of Joe Sewell just about "sets" them for the season. Hoag from Sacramento and "Dixie" Walker from Jersey City will fill the outfield needs, and manager Joe McCarthy believes, too, that the nine new pitchers carried to St. Petersburg will solve his mound problems.

Bill Terry, honored by the New York baseball writers here last night as the most valuable player in the league, is expected to talk salary with President Stoneham during the week. He refused to discuss the matter last night, saying that he preferred to wait until after he had talked to the Giant boss.

It was reported Terry will be a decided holdout unless he receives a substantial increase.

## Frank Stack Wins Title In Skating

(International News Service)  
COONOMOOWOC, Wis., Feb. 2.—Frank Stack, Canadian born Chicagoan, today wore the crown of speed skating champion of the United States after defeating a field of 50 of the fastest bladers in the country.

The title was held last year by Allan Potts of New York, one of the entrants who failed to score a point during the two day meet.

Stack clinched the 1931 title by winning the 440 yard race and placing second in the three quarters and five mile events. Combined with Saturday's 50 points yesterday's victories enabled the speedster to head the list with 120 points.

## Eagles Defeat Seventh Warders

A fast game was witnessed on Saturday on the Mahoning floor when the fast stepping Syrian Eagles chalked up another victory when they defeated the Seventh Warders. The score was 35-16.

The Eagles secured a lead early in the tilt and never were in danger of being overcome by their opponents. Abraham and G. Mike were the stars for the winners, while Di-Thomas and Gardella were the best for the losers.

The summary:  
Syrian Eagles..... Seventh Warders  
Abraham.....F..... Tommelio  
G. Mike.....F..... Prescilla  
Toney.....C..... DiThomas  
Barket.....G..... Cardella

## SPYING ON SPORTS

By WILLIAM RITT  
Central Press Sports Editor

A little item on the sport pages the other day—a brief paragraph known to the trade as a "squin"—told a fine story.

The squib said that Broomstick, a great race horse of three decades ago, celebrated his birthday down on a Kentucky farm.

That birthday was Broomstick's thirty-first and a record age for an American thoroughbred stallion. By reaching this thirty-first birthday, Broomstick broke the mark of 30 years set by Himyar, originator of the Domino strain.

The big bay celebrated his momentous natal day by munching his usual quota of fodder and playing with Nellie, his Airdale mascot. As none of the newspapers carried an interview with Broomstick on the event of this birthday we'll just have to imagine one.

"Thirty-one years old," you can hear old Broomstick say as he curls back his lips to show he still has all his front teeth, "and I feel like a yearling. Yessir, I feel so good that if the Whitneys would permit me I might even try a come-back."

"But let's not talk about the old folks. I've had my day. And what a day! I can still see the old Brighton Beach track spinning under my hoofs as I copped the old handicap of a mile and a quarter in 2:04 4-5. That set a new world's record but at that, I just barely nosed out a fire-breathing, hell-roaring colt by the name of Irish Lad."

"Oh, I could go on and give you a lot of stuff about how I slapped the field down in the Great American, stakes at Sheepshead, the Travers and the Juvenile and 10 other races, but that's all old stuff now, even the money I earned, which was \$74,570, big dough in those days, almost 30 years ago, and still not so bad even in these times of \$100,000 stake races."

"However," here Broomstick turns and glances proudly at his own frame, almost as sleek as a two-year-old's, "I would like for you to know that I'm not only the champion in point of age, but also in producing the classiest family of runners and breeders this side of the Atlantic has ever seen."

"I know that there are some folk who think the Man-o-War strain is dominant over here, but I'm telling you truthfully that no other horse has produced as many winners and as many producing sons, grandsons and mares as yours truly."

"My folk have made racing history over here and I'm proud of 'em. I could rattle off a list of my descendants who made good on the big tracks until you'd have writer's cramp from jotting 'em down, so I won't."

"I was champion sire in 1913, 1914 and 1915—don't forget that. And if you do—it's in the record book."

"Well, mister," and Broomstick stomps a forefoot to show how flexible are those great muscles from which was spun one of the turf's star careers, "I guess that's about all. I could go on like this but you'd think I was bragging."

"What's that? What is my formula for longevity? Well, sir, I never paid much attention to that but I guess in these interviews with us old birds that question must be answered."

"Hum—I never touched liquor, smoked or stayed out late; always ate well-balanced meals and took plenty of exercise, hee, hee, hee. But don't think I was an old fogey. No, siree! I used to take a flyer now and then—along about four or five o'clock in the afternoon when the barrier went up on one of the big gallops."

"Hee, hee, hee, just my little joke. Well, so long."

## Chief Of Police Gets His "Man"

Wellsville Chief Trails Man 500  
Miles By Auto And 30  
Miles By Foot

(International News Service)  
WELLSVILLE, O., Feb. 2.—Preliminary hearing for Theodore Freeman, 27, captured by Chief of Police John H. Fuiz, after a 500-mile automobile trip and a 30-mile hike over the mountains, was to be held today in connection with the fatal shooting of James Hodkins, 38, during a street fight here March 10, 1923. The arrest was made in Knox county, Kentucky.

Police said information as to Freeman's whereabouts was made by his brother, Canada Freeman, and his father, Farmer Freeman, who are held as material witnesses in the shooting. An uncle, William H. Freeman, is also under arrest in connection with the stabbing of Lloyd McAdoo in the fight in which Hodkins was killed.

## Heavy Fire Loss At Alliance, Ohio

Big Department Store Burns—  
Business Section Of City  
Threatened

ALLIANCE, O., Feb. 2.—The four-story Spring-Holzworth department store building in the center of the business district here was destroyed and two firemen were taken to City hospital in serious condition as the result of the most disastrous fire in the city's history Sunday.

Firemen from Alliance, Canton and Sebring battled until after noon before they had completely smothered the fire, which was discovered on the third floor of the department store building Sunday morning.

The spectacular blaze attracted

thousands of persons and the flames shooting high above the city, were visible for miles.

The injured firemen: Capt. Arthur Tanner, 32, of Alliance, in City hospital as a result of exhaustion and heat; collapsed while fighting the fire from an adjacent two-story building.

Fireman Calvin Eaton, 23, of Sebring, in City hospital; collapsed from exhaustion and exposure while working on top of a building near the center of the fire.

Fire Chief J. E. Held of this city estimated the total damage at nearly \$250,000 although officials of the companies affected placed estimates at much higher figures. Early Sunday it was believed the loss would total \$750,000.

It was at first feared the entire business section might be destroyed. All Alliance fire companies were out to fight the blaze, assisted by one company from Sebring and another from Canton.

The department store, largest in the city and owned by Marshall Field & Co. of Chicago, was located in the heart of the Main street business district.

## Bandits Have Hard Time In Vandergrift

Foiled In Attempts To Steal  
Autos, They Hold Up Man  
Who Is Broke

(International News Service)  
VANDERGRIFT, Pa., Feb. 2.—Even bandits and hold-up men can feel the depression in their business. Here's what happened to some here:

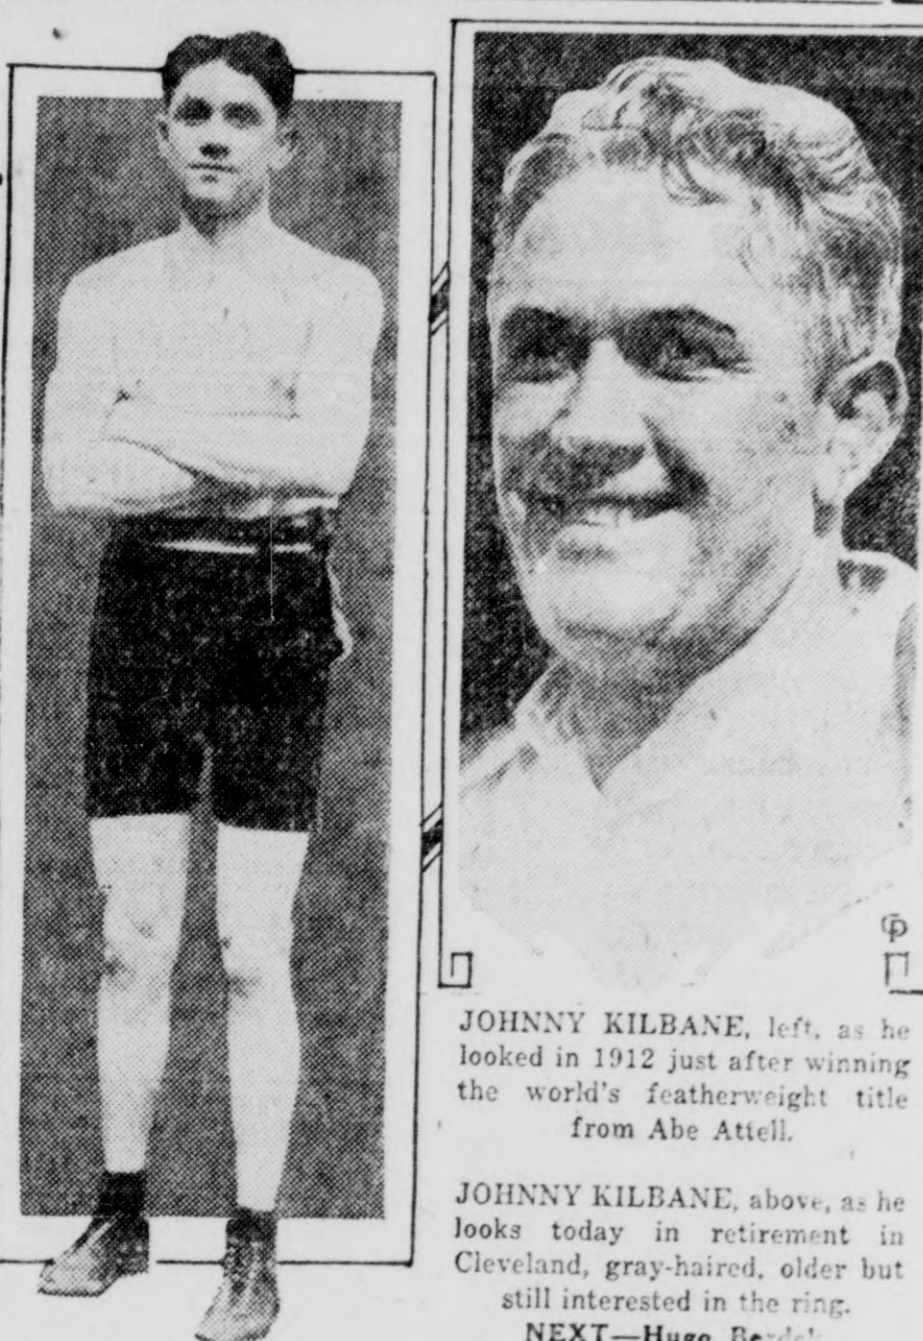

They stole one automobile. The ignition was locked. The thieves pushed it a block, unable to get it started, abandoned it. The owner got it back.

They made off with another car, parked it on a side street. Police discovered and recovered it.

They held up a pedestrian, asked him to hand over "all he had."

The victim laughed merrily. He was broke.

## Woman's Fate Is Up To Court, May Be Put To Death

Mrs. Hattie Evans, Of Trenton,  
New Jersey, Is Under  
Death Sentence

(International News Service)  
TRENTON, N. J., Feb. 2.—The New Jersey court of errors and appeals today will determine the fate of Mrs. Hattie Evans, sentenced to die in the electric chair at Trenton with Private Lester Underdown of the Marine Corps. They were convicted of the murder of her husband, Robert Evans, a former sailor, and his shipmate, Albert Duffy.

Evans and Duffy were shot and clubbed to death at Evans' home near Lakehurst, N. J., on May 15, 1930.

If Mrs. Evans is put to death she will be the first woman to die in the chair in New Jersey and the first woman to be put to death in this state since 1876.

Gentlemen:

"Spit" is a filthy word. So is the practice of spitting. More serious than any consideration of nicety, however, is the very grave danger of contamination carried in the mouth secretions.

Your attack on this evil in connection with your recent cigar advertising is an effective stroke which should do much to awaken the public to this peril.

I hope you do not abandon the attack. If my endorsement is of any value, please feel free to publish it in your campaign.

Sincerely yours,

NEW YORK STOCKS

Narrow Price Level For Stock Trading

**NEW YORK, Feb. 2**—Stocks moved sluggishly through an extremely narrow level of prices in the early trading today. The week-end accumulation of orders was mostly on the selling side, and stocks dropped off at the opening, but the volume of selling was light and the market steadied itself in the second hour. With one eye on Washington and the other on the business outlook horizon, Wall Street is disposed to "go slow" until both the political and the industrial skies indicate clear weather ahead.

Auburn Auto, J. I. Case and other speculative favorites registered a come-back in the second period, recovering all of their lost ground. Case sold about a point above Saturday's close. United States Steel broke under 139 for a fractional loss, but little stock was sold at that price. The Utilities held within a small range of last week's finals.

The Decision

The court held with the doctor. The judges reasoned thus: Such words spoken concerning a physician are actionable in themselves. The charge imports such a total ignorance of his profession as to destroy confidence in him, and so the law has settled it that words which falsely impute to a doctor general ignorance or lack of skill are actionable.

Greater Amount Is Pledged To Missionary Work

**Missionary Convention At Hoover Heights Tabernacle Closes Sunday Night**

The greatest missionary convention held in recent years at the Hoover Heights Tabernacle closed last evening with a great spiritual climax. The attendance was the best, the missionary offering increased about 15% over last year and the spiritual results brought joy to the leaders and congregation. Last evening in response to the invitation of the evangelist Rev. H. D. Stoddard, between thirty-five and forty came to the altar for spiritual help. All ages were represented, men, women, boys and girls. Testimonies given at the close indicated that all had received the help they came to obtain. The missionary offering received yesterday in cash and pledges amounted to about \$750 and the pastor, Rev. M. J. Scripture, stated this morning that more was to follow.

Great interest was taken throughout the convention in the mission work in the Philippine Islands, as Rev. C. W. Strohm, representing that field, was the first missionary from there that any had heard before. The fact that that land is under the control of the United States flag also added to the interest. God's mighty working there in great sweeping revivals encouraged many, inspiring them to aid in the work.

Although the work in India has been presented more frequently, Miss Eva King thrilled her audience with the marvelous ways that God has answered prayer there, working miracles, changing lives and the dictates of some in authority. Her messages quickened missionary zeal. Rev. H. D. Stoddard, a former missionary to Africa, was a great asset to the party. His spiritual messages were given in a positive, faith inspiring manner that brought results. He preached with great fervor as he urged his hearers to prepare for God's day of reckoning, by inner purity and spiritual power, by presenting all the tithes and offerings to God, by doing now what God urges. Faith in God was strengthened in the Christians.

Special revival meetings will continue with the arrival tomorrow, Rev. P. B. Collett of Beulah Beach, Ohio, with services each evening at 7:30.

Cappellini Given Two Year Term In Eastern Prison

**Former United Mine Official Gets From Two To Four Years For Arson**

(International News Service)

**WILKES-BARRE, Pa., Feb. 2**—Rinaldo Cappellini, former fiery president of District No. 1, United Mine Workers of America, today was sentenced to serve from 2 to 4 years in the Eastern Penitentiary on a charge of arson.

Cappellini was sentenced by Judge W. A. Valentine when he appeared in court today, taciturn after having pleaded guilty to the arson count Saturday.

"In view of your previous good reputation," Judge Valentine told the former mine leader, "I'd like to sentence you to the county jail but I am unable to do so."

Cappellini was taken to the jail pending his removal to the penitentiary later this week.

Similar charges against his wife, perferred after the Cappellini home at Plains was destroyed by fire several months ago, were dropped as a result of the former mine leader's plea of guilty.

Small Fire On Spruce Street

Firemen were called to the home of Miss Leah Elliott, at 69 Spruce street, this afternoon because of a small fire on the second floor. During her absence, an open gas fire ignited the floor, and a small blaze was started. Firemen extinguished the fire quickly. The loss is approximately \$25.

At a dinner-party a very absent-minded professor was seated next to a charming woman.

"Don't you remember me, Professor?" she smiled. "Why, some years ago you asked me to marry you!"

"Ah, yes," said the professor; "and did you?"—Optimist.

Prince of Wales in Bermuda

A close-up of H. R. H. the Prince of Wales, seated in his carriage when he and his brother, Prince George were conveyed from the dock to the Mid-Ocean Golf Club, where they played a round of golf. Picture at the left was snapped just as the heir to the British throne was stepping ashore in Bermuda enroute to South America.
